Really, Shinichi ?

Yes!

You already know who the murderer is?

What?

全沢劇院

*The chinese is the theater's name.

To create the fake alibi evidence!

I even know that person's special technique...

Un-hu n, okay!

Just do this...

No problem, just pretend that you heard the whole thing from us!

I just arrived, so I can't be the detective.

Now what do we do?

You are going to perform a special task this time!

Cheer up!

You will lose your friends !!!

You want to get all the credits ?

How come you always solve those cases?

Pleas e!

Yes ?

Insp ecto r!

?

...Okay!

Listen carefully!

This place is not sold yet?

He ran out of money, and there's still one million dollar bill left.

He doesn't have any money to buy this place!

no!

The victim company's employees said that he's really upset these days and get mad at almost everybody! So he came here to...make trouble...

really upset ?

How sham eless !

I think he doesn't want to buy it, all he wants is to make trouble!

The plan was to sign the contracts tomorrow.

That's not impossibl e inspector!

If he die now, he wouldn't have to worry...

So, he wouldn't have enough enough money to buy this place anyways, this contract was just a joke...

Hun?

DARK!

Alright then.

It should be okay, now we know he's suicide.

Can I go now? I have some personal things to do.

Who turned off the lights?

What's going on?

*** Knock on the window

That's an obvious question! Of course I am practicing the murderer's murder technique!

What are you doing in the projection room?

Mister Agasa!

Oh, it's me!

***

That's right!

techniqu e...

murder er's...

and cleverly used this machine to help him...

The person who murdered Mr. ZhangTian while the whole theater's in the dark,

I already know your murder technique !!!

Mister GuQiao!

And how do you know about this case?

He was with me when the shadow appeared, we were in the same room together!

Mister, wait!

WHAT?

Wh...

*Appear

出現

Yep!

Right, Cona n?

I already heard the whole thing from this child.

*Matching lips

You mean this?

啪

Oh...tha t...

I already told you! He was with me when the shadow appeared in front of the window and on the screen!!!

mangareader.net

Hun?

No it's not!

What kind of technique is that? It's just a little boy hanging in the midair!

so?

The light got Genta's head!

If you were there all this time, then how come we didn't see your shadow?

Hey! You can't lie kids!

yea h!

righ t?

He's been there for a long time!

But mister Agasa...

So even if he's there, you can't see his shadow!

to block this room's light!

I used this book...

That's because...

mangareader.net

Oi!

嘎吱嘎吱

Genta, Mitsuhiko, Ayumi, thanks for your help!

But a corpse can't move on its own.

They all said that the shadow was moving slightly...

WH AT?

If you add their weight together, they can be one adult in total.

Begin!

Okay, Haibara.

air conditi oner...

air

turn

I'm workin g on it

okay

mangareader.net

so if you adjust the air conditioner to a right temperature and the wind will surely blow on the corpse and make it move slightly, like mister ZhangTian...

This theater is one big airtight place...

Hun?

Who a!!!!

suppose you already know how to make the shadow move and all, but there's still something you forgot to mention

But mister...

right...

And you all said today's wind is unusually strong, isn't that right?

This is what you did sir!

I've been a projectionist for a long time and I know everything about it...

Then we can all see it! And if you blocked the light with a book, then the movie won't be able to show on the big screen...

If the body was in front of that window..

And then!

ah?

Look, first this...

mangareader.net

and then this...

Wha t? ...

First this,

How did he...DO THAT????

How's that possible!

cut the film into half and play it with two machines?

D-did that old man...

Hurry and stop him!

howev er...

That film is very important and we still have to return it!

I won't forgive him!

噠噠噠

噠噠噠

THAT'S ENOUGH !!!

開門

Only one machine is running!

******

WHAT?

******Noise of the machine running properly.

What did you put up there?

Hm?

Look over there and see for yourself!

MIRROR!

T-That's...

And there's no film in this machine!

How'd you do that?

The light will reflect...

TUR N

If you move it slightly...

One piece of broken mirror from the rest area...

mangareader.net

The light will shoot straight at the mirror and reflect itself to the other window, like this...

And you wouldn't need to cut the film and be in this room while the shadows appeared.

that way you can hang the corpse up and play the movie from the other window!

The reason why other people didn't see this mirror was because the machine was blocking it...

That proofs that you didn't play from the right mirror!

The best evidence is ZhangTian's cigarattes, because I heard that he only sit in the back row and block the light, and today he sat in a different seat than any other days.

And then you start your mirror illusion.

Then you adjusted the air conditioner, so the body will move...

first ask miss Baihe to buy tea for you so she won't be there during your murder...

In other words, mister, your murder technique is...

Really, GuQiao ?

mangareader

Then you went back to the projection room and released the taped mirror piece, so the shadow appeared on the screen.

After that you went down and killed mister ZhangTian, hang him in front of the window, and of course, the movie was already showing from the other window at that time.

Even if you did buy it, he'd sill ask you to buy tea for him.

But he didn't know that I'll accidentally forget to buy our lunch!

That way, even when the shadow appeared, you and miss BaiHe would be in the same room together and become your alibi evidence.

And you didn't want him to get suspicious, so you decide to use the technique that will use lots of your energy.

Also, he asked the boss to see today's movie is for him to witness his murder and alibi evidence.

!?

Look at the scene when the shadow appeared!

Ah?

You can look at JinChu's digital camera.

But that's only your guess!

FOCUS IS ALL WRONG!

FO-

Since they are suppose to fit the screen, it takes lots of time for him to fix the focus and make it perfect in both way, but no matter how hard he tried, there's no way for it to happen.

All theater's projection machine fits the screen perfectly.

That's one weakness of your strategy, when you move the mirror back to the original window, the reflections will cause the blur of the scene.

And even if the focus can be adjusted in time, the shaky part will stil show.

Oh yeah, he wasn't able to aviod those shaky part either.

That's beca use..

B-be..

After you bought the lunch and start to boil water, why did you go the bathroom? Gave me an answer!

Fine, then why did you go the bathroom before the shadow?

I remember! When the shadow appeared, I must've been so scared so I touched the machine and caused that shaky part of the picture!

mangaread

GuQiao...

I'm really sorry, BaiHe...

Because there weren't any mirror piece in this room.

Right ?

Yes, I apologize for those troubles I caused.

So, it's really you?

After what he did to us, I can't!

I do, for many times I considered not to do this, but I just can't stand that guy...

I thought you liked this theater as much as I do...

I can't believe you actually did that, GuQiao...

So I decide to hang him up here, so he can see this...

last weekend , the only audience we got is that guy..

But there days our audience kept on going away, and,

To see our audiences' expression when the movie starts...

I love to watch the whole theater from the window...

mangare

and experie nce how it felt to see this scene...

Misery and lonely theater!

I caused this kind of trouble at the last day of our theater life.

I'm really sorry Boss, I really am.

Even though dead people can't feel or see.

Your time is over.

Our audience decreased before he came and start to make troubles, anyhow, end comes to everything.

ah?

This moment was expected...

THAT' S NOT TRUE! !

Nobody wants to come here and pay to watch a movie anymore.

Now that almost every household owns a television...

mangaread

I love movie s!

The screen in the theater is much bigger than our television!

We can enjoy those movies better in the theater!

YEAH! Especially the sound effect, our T.V. can never be the same as that!

And make me desire for more!

I agree!

My mom won't yell at me for watching too long!

The effect s are differ ent!

*Detective Boys began to chitchat

Oh yeah, mister, if you know how to use the projection machine, please show those kids the last part of the movie.

Again, I apologize for all those trouble I caused.

Then just let those kids to finish the movie.

Thank you!

And so we stayed and watched...

The last part of Godzilla. ..

They are really enjoying our last movie!

WOW!

BEHIND YOU! BEHIND!

watch out Godzilla!

oh my god! Run Godzill a! RUN!

decide d not to sell.

Not the last...

Looks like I can't retire yet!

I almost forgot how excited I was back when I first built this theater, those happy expressions on our audiences' faces...

But they are still too loud and noisy...

I must see my audience's face as happy as those kids, at least before I retire.
