一つの確信

Yeah.... but we don't know when the others will be back?!

Damn it! We've to wait 'til he's tired and relaxes, that's when we have to get a chance and time to escape!

That man don't even move!!

we're here..

the bad guy is sitting where the egg is

Divides into 5 roads

You're right... we have to find the road of dragon Conan said no matter what!

If we don't get out of here fast and get Conan-kun to the hospital... we're finished!

Doraemon....

road of dragon... dragon...

Here's not a road only a hole.... there's 4 left, one out of them 4 is the road of dragon

That means the 4th road is the road of dragon!

D. in the alphabet, comes 4th....

DRAGON

Please wait a sec! Dragon starts with a D doesn't it?

He key point is 'TO'... the road of dragon...egg....

Huh?

Talking about it, Conan said...

Really?

But counting from the main road, we're in the 4th road...

Then why
didn't you
say so
earlier??!!!

He's
walking
towards
us....!!

Oh no
...

Don't worry...
it's only got
these left...
we'll find them
real soon...

No.... we
waited by
the first
corridor....

A.... have
you found
the brats??

Ah...

I told you to
find the brats!
Take it
seriously!!!!

Sigh

Those brats will
come out....
be carefull

One of the old grannis
told me that people
born in the 6th year
are snakes...

Sna-
kes
?

If dragon
becomes
snake,
then it'll
love eggs..

Still
couldn't
solve it....

The key points
are 'to' 'the r-
oad of 'dragon'
and 'egg' no
matter
what...

Ah?

That's it!
This must
be it!!

year?!

The
6th...

It must be the 3rd or 10th year!

But how about 'to'?

Dragon is the 5th year and egg is the 6th

'To' and 'dragon' plus 'egg' are the key points of giving away hints of the 12 animals of the Chinese year...

of dragon is just next to the egg...

The position of the egg is the 6th year, the separate 5 animals are...the 5th year which is the road

亥 (Pig)	子 (Rat)
戌 (Dog)	丑 (Ox)
酉 (Chicken)	寅 (Tiger)
申 (Monkey)	卯 (Rabbit)
未 (Goat)	辰 (Dragon)
午 (Horse)	巳 (Snake)

But, in this case 'to' have got another meaning

And the egg. I think it's to do with the 10th year

But the horrible looking guy is sitting there!

'Egg' in Japanese is 'yoji', it's got 2 syllables in it!

Um... how come 'to' and 'draon' and 'egg' don't seem to be like the key points of the 12 animals. the only connections between them is that they all have 1 syllable...

But chicken lay eggs as well!

Maybe the egg means rabbit! Rabbit is the 4th year, which is similar to the word egg!

and got laughed at by mummy and other people in the restaurant...

I once said "woji oujiyaki" instead of 'yoji tamagoyaki' in a restaurant

Oi, wait a second!

Really?

But egg could write as egg as if animals babies or yojil

Genta you idiot! how can a prince be burnt?

yo... yoji tamago-yaki?

The Japanese chess!

This might be

It means that you move the king when you're in a game of chess!

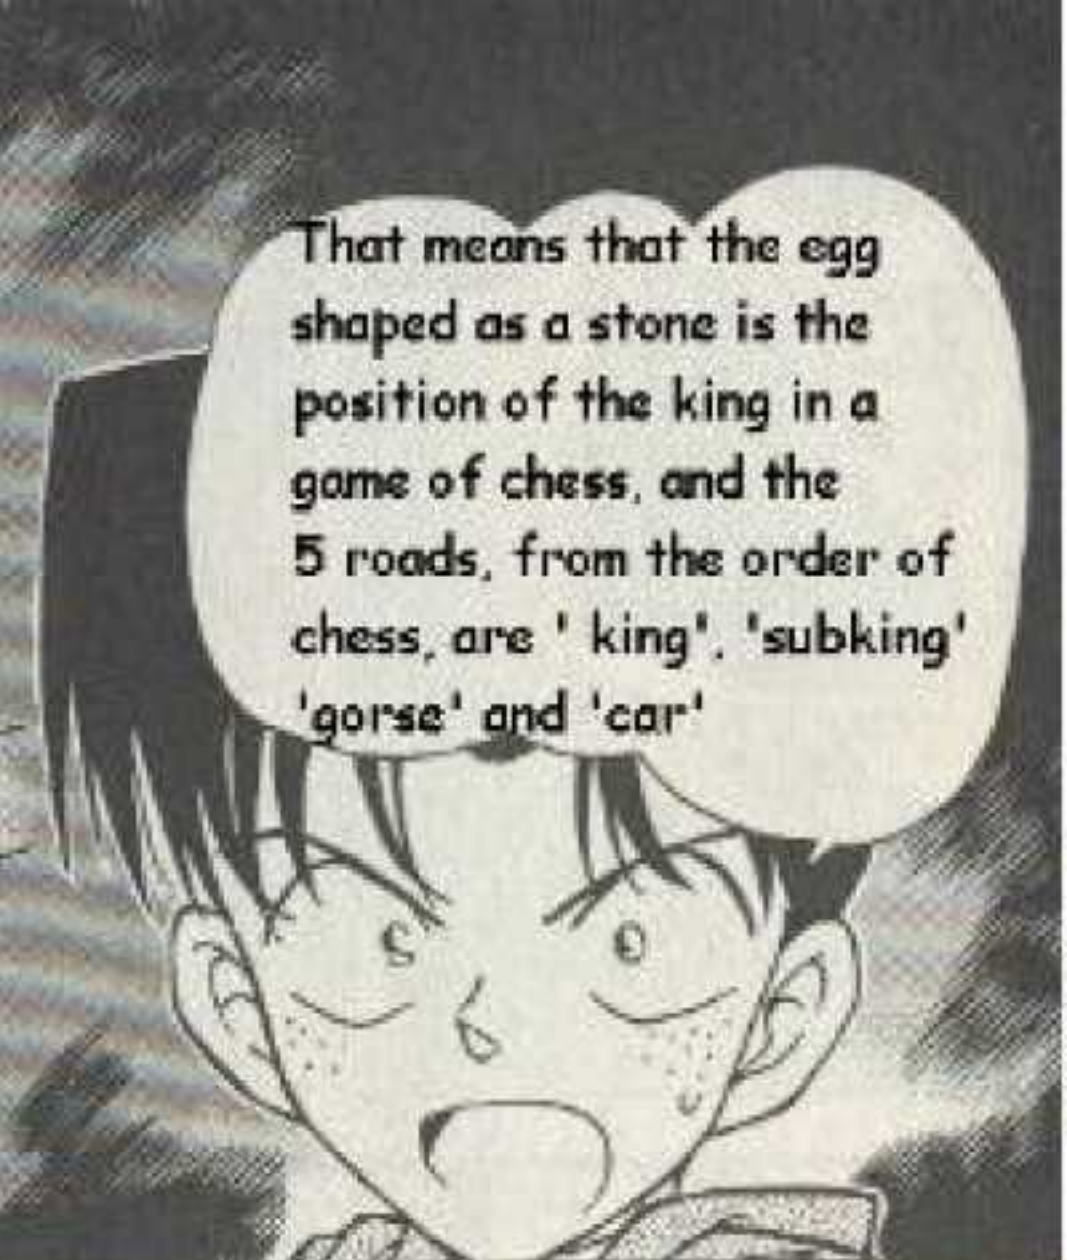

Yo... gi king?!

'To' is behind 'soldier' and 'dragon king' is behind 'car'... if what Genta said is right, may be it's yogi king'!

Eh?

the road in front of 'horse' is 'car'...

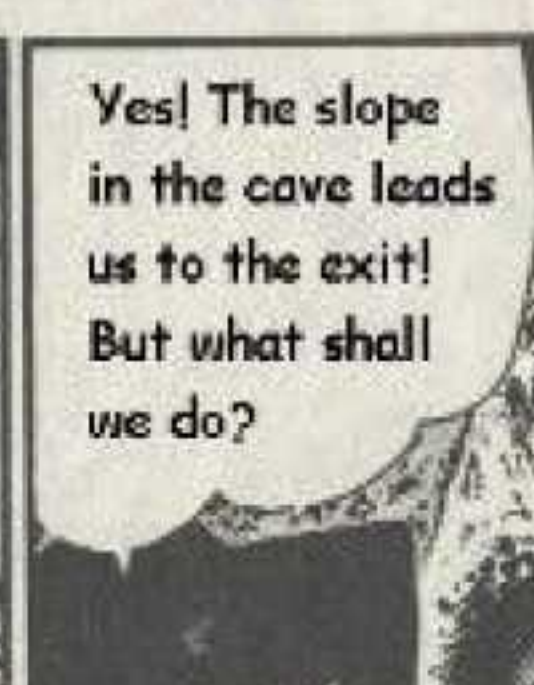

That means that the egg shaped as a stone is the position of the king in a game of chess, and the 5 roads, from the order of chess, are 'king', 'subking', 'gorse' and 'car'

we have to get pass the horrible man!

If we have to get through.

Yes! The slope in the cave leads us to the exit! But what shall we do?

Then where is the road of dragon?

Our badges?

Our only weapons are watch-shaped torch and our badges....

Kuso...

Oi, may be we should..

talking about it... conan did...

What
!?

Ah...

Run....

DIE!

Ah...

Look at you guys
you idiots! try-
ing to put me
out by throw-
ing badges
at me?!!

Run now!!!

U~~~~AH!!!

Those...
Those
brats!!

O!!!
What's
happen-
ing??

You
brats

Don't
run

They went
in there! ...
Kusol

it's the exit~!!!

it's...

Gen...
Genta!!!

otherwise i'll
make a hole
on his fore-
head!!

Oil!
Hurryy!!

Don't get
out of
here!

Oil!
You
2!!

Ah...

You're surrounded!
Put down your weapons and surrender!

Police!!!

Of you don't let me go! i'll kill this kid here!

You're mad!

Still don't understand?!

What?

Idiot... you can't go anywhere in this game anywhere...

Hey

Our adventure in the Lime stone caven heve finished...

The group of rubbers were arrested...

I was half fainted when i heard all these... they sent me to the Beika hospital...

But don't know who wrote it down...
Actually...

The exit we got out from...They knew it from people in the villages near by....

The one who called the police was Ai...

Eh... no...
that was...

I thought
he only got
scratches??

Oper-
ation?

Eh?

Eh

He got
shot by
a gun...

he's in a very
dangerous
position to
be in now....

The wound
was near the
kidney, so he
bled alot, it
might damage
the kidney

Wake up!
Conan!!!

Conan!

Eh... she's the kid
who lives with me,
she's called
Haibara.

That
kid...

Eh

No!
Doc-
tor!

Let me give
him some of
my blood!!

If we get
it from the near-
est
hospital..

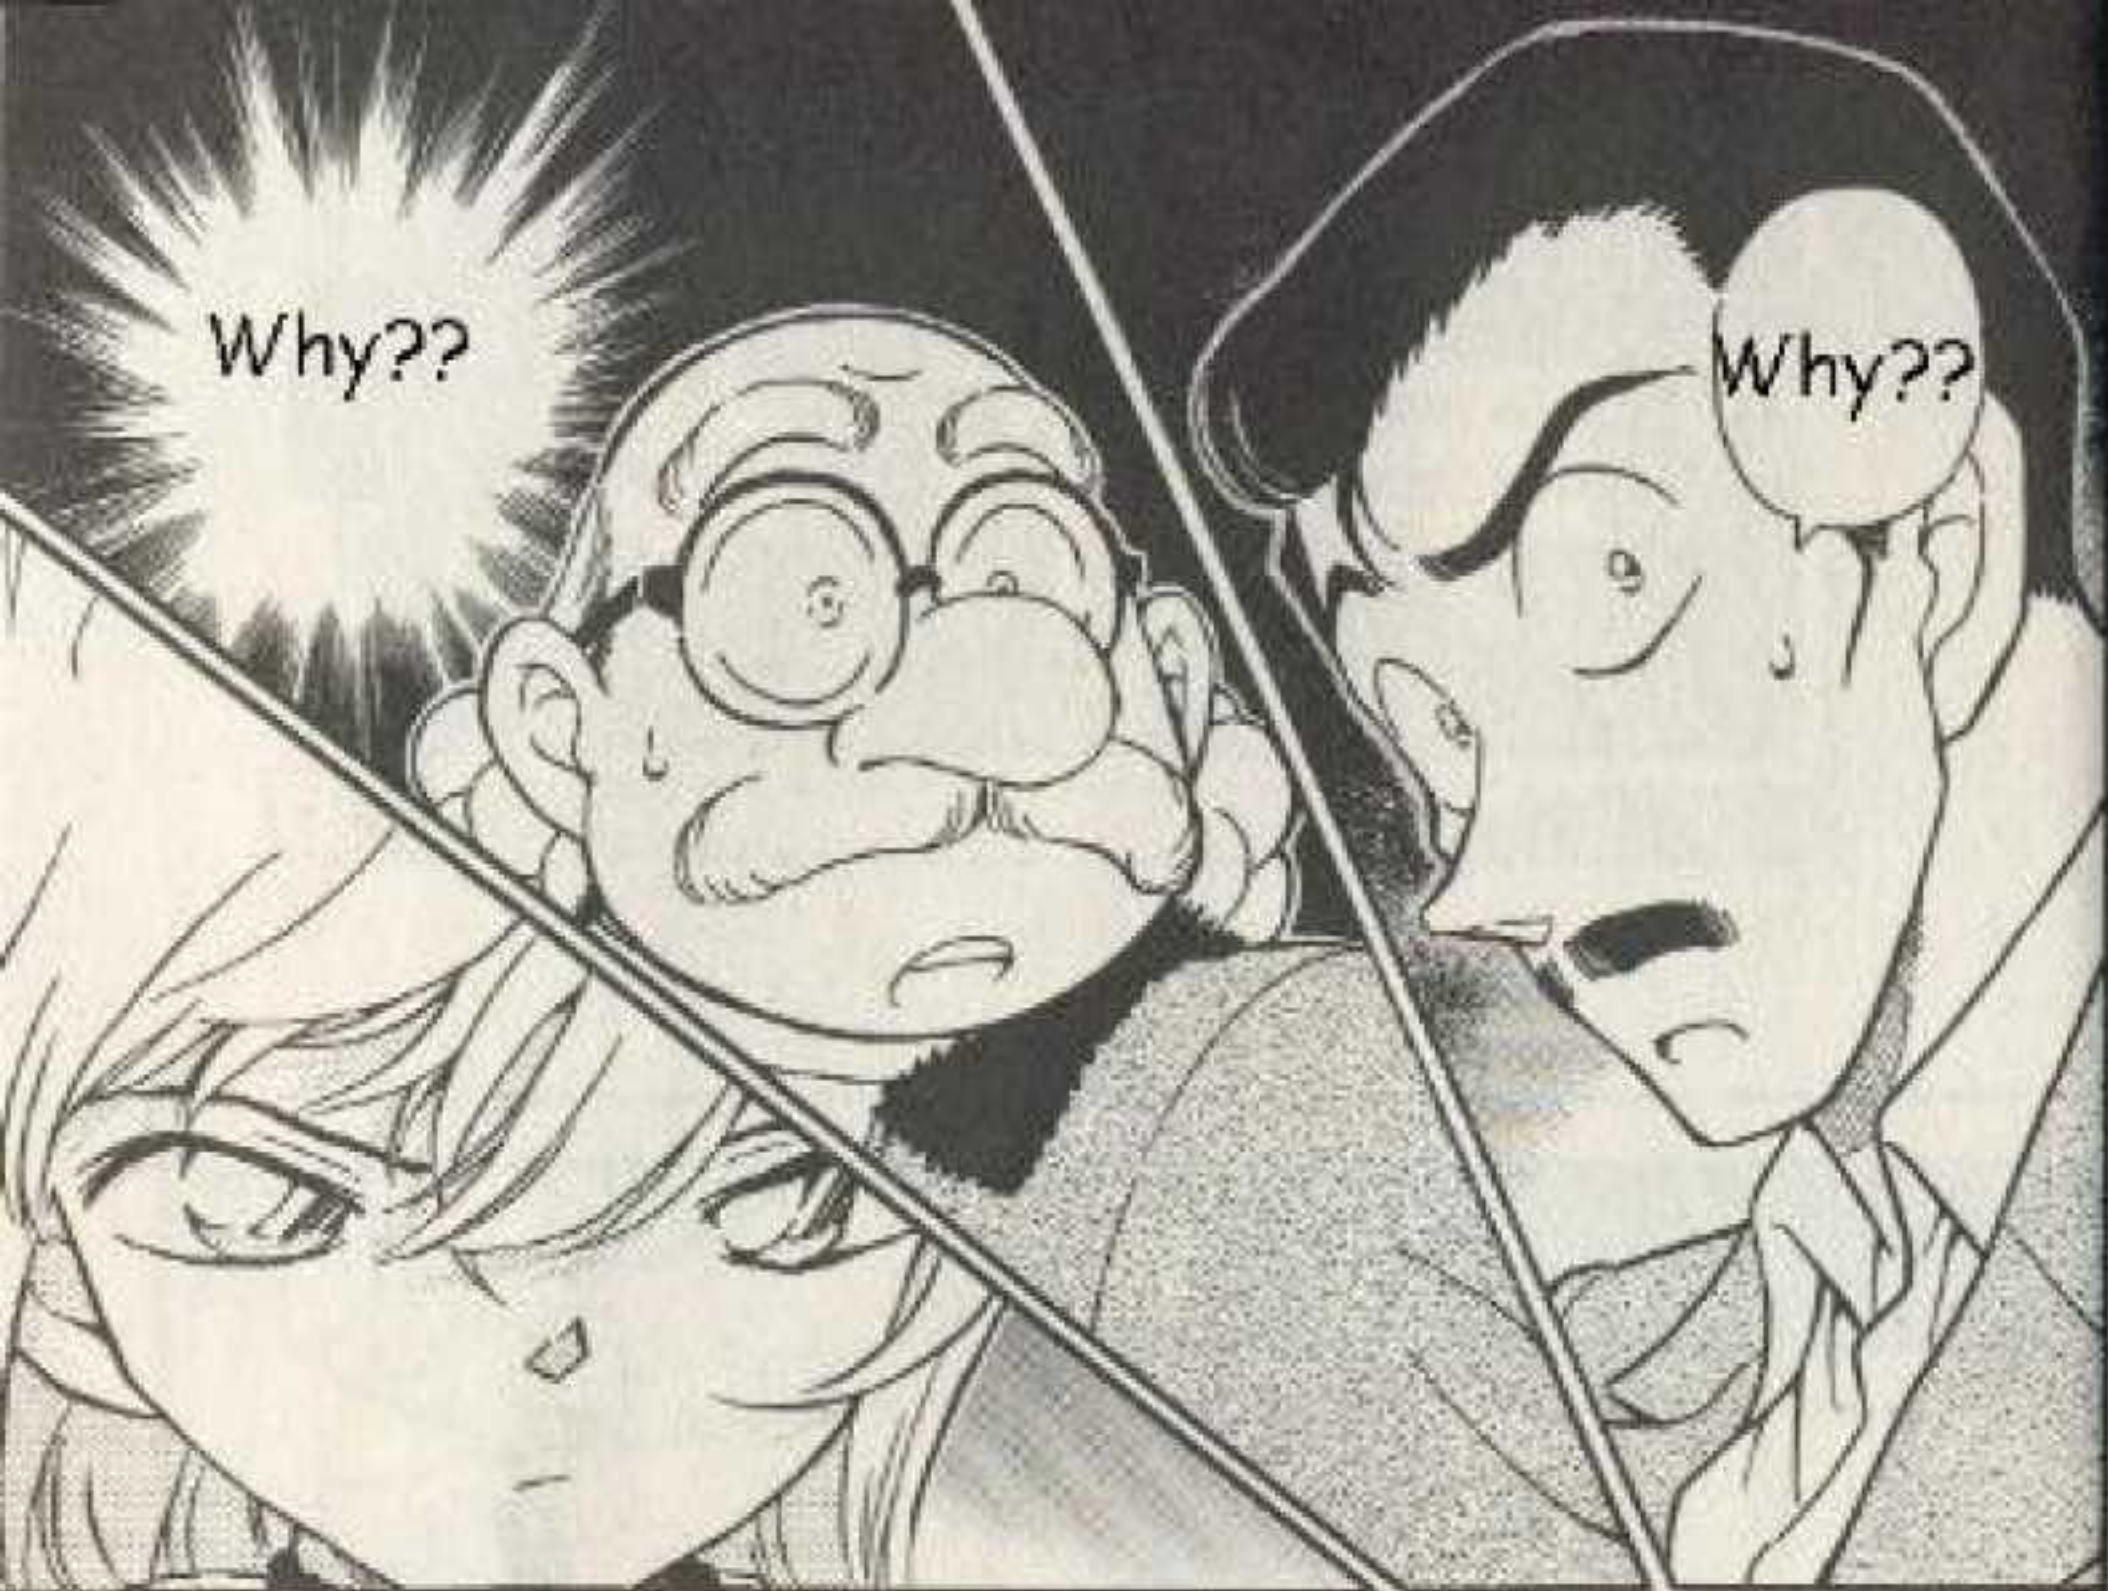

The earlier pat-
ients don't have
the same blood
type of this kid's,
the type of blood
he's got is running
out!

It'll be
too late

My blood
type and his
are the
same!!

Why??

Why??

so...

Ran...

アアア;

Yes!
Please
come
this
way...

Please test
my blood if
he can us
