

File 10

The Last Possibility

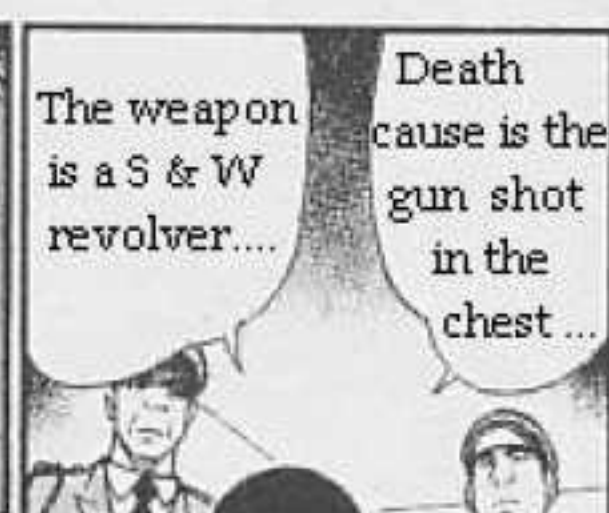

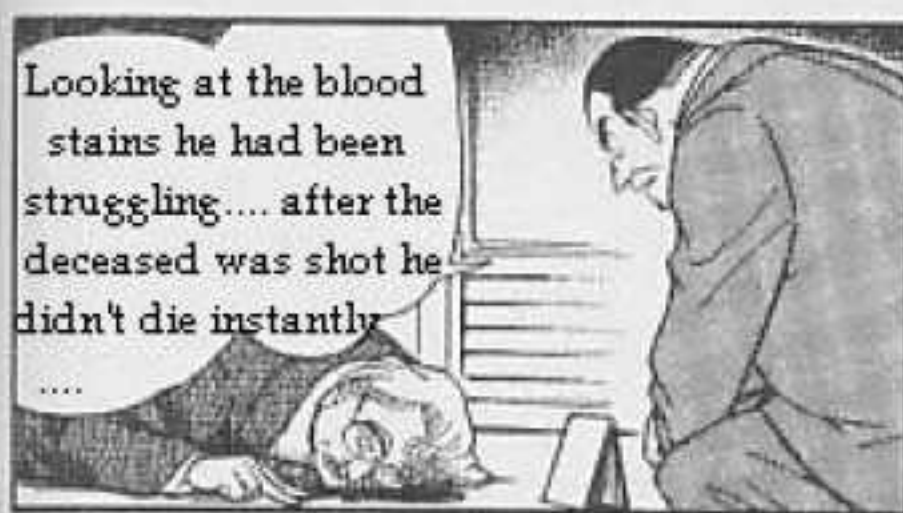

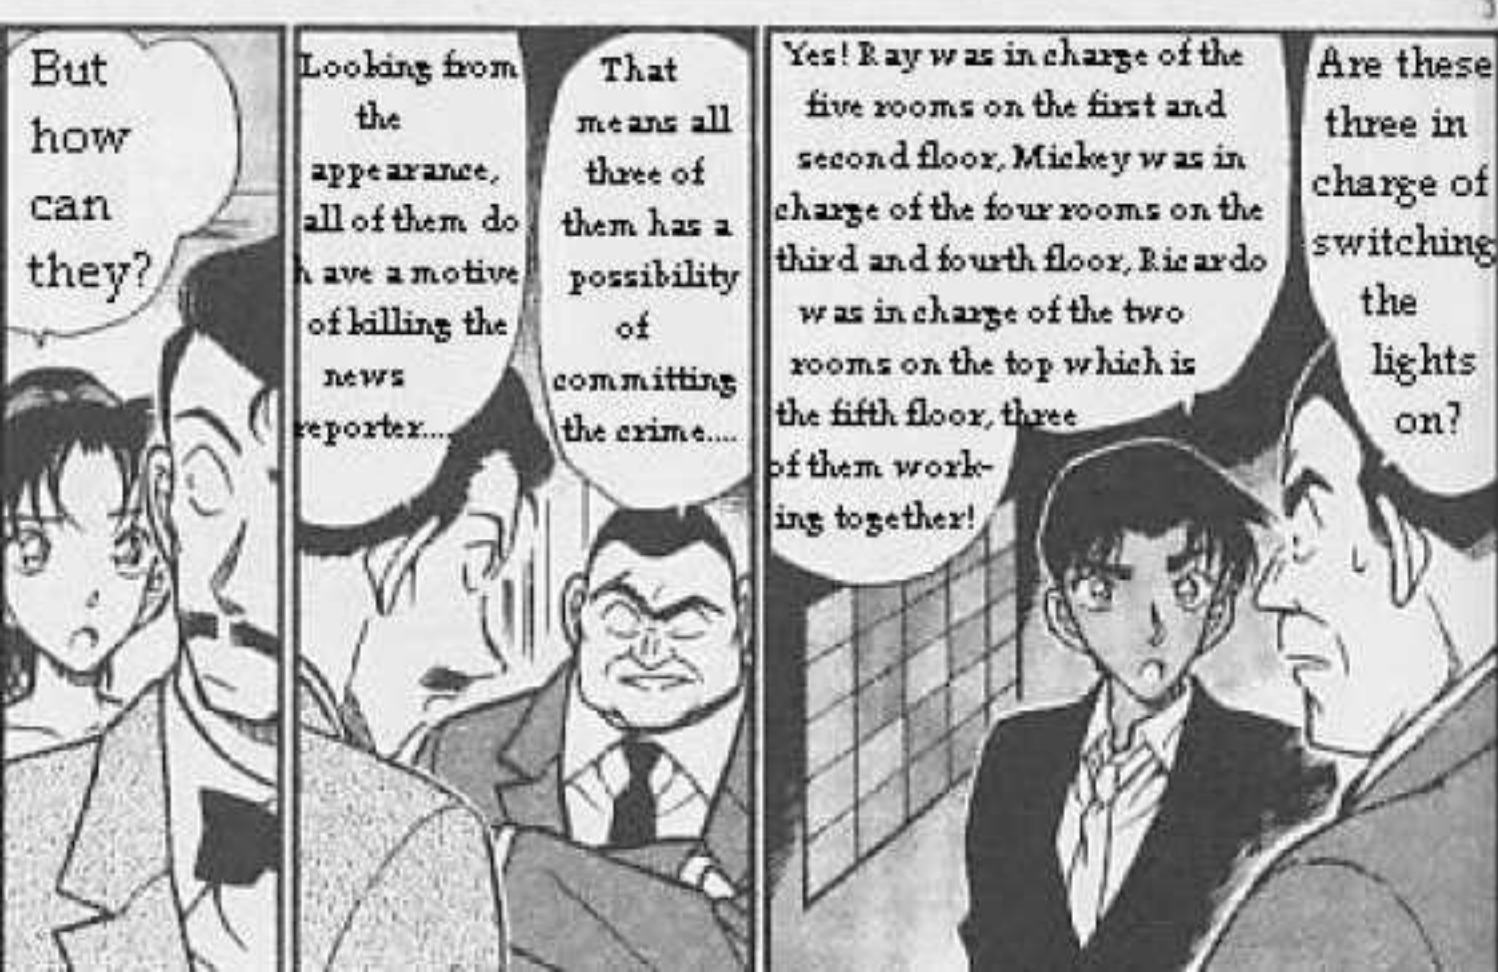

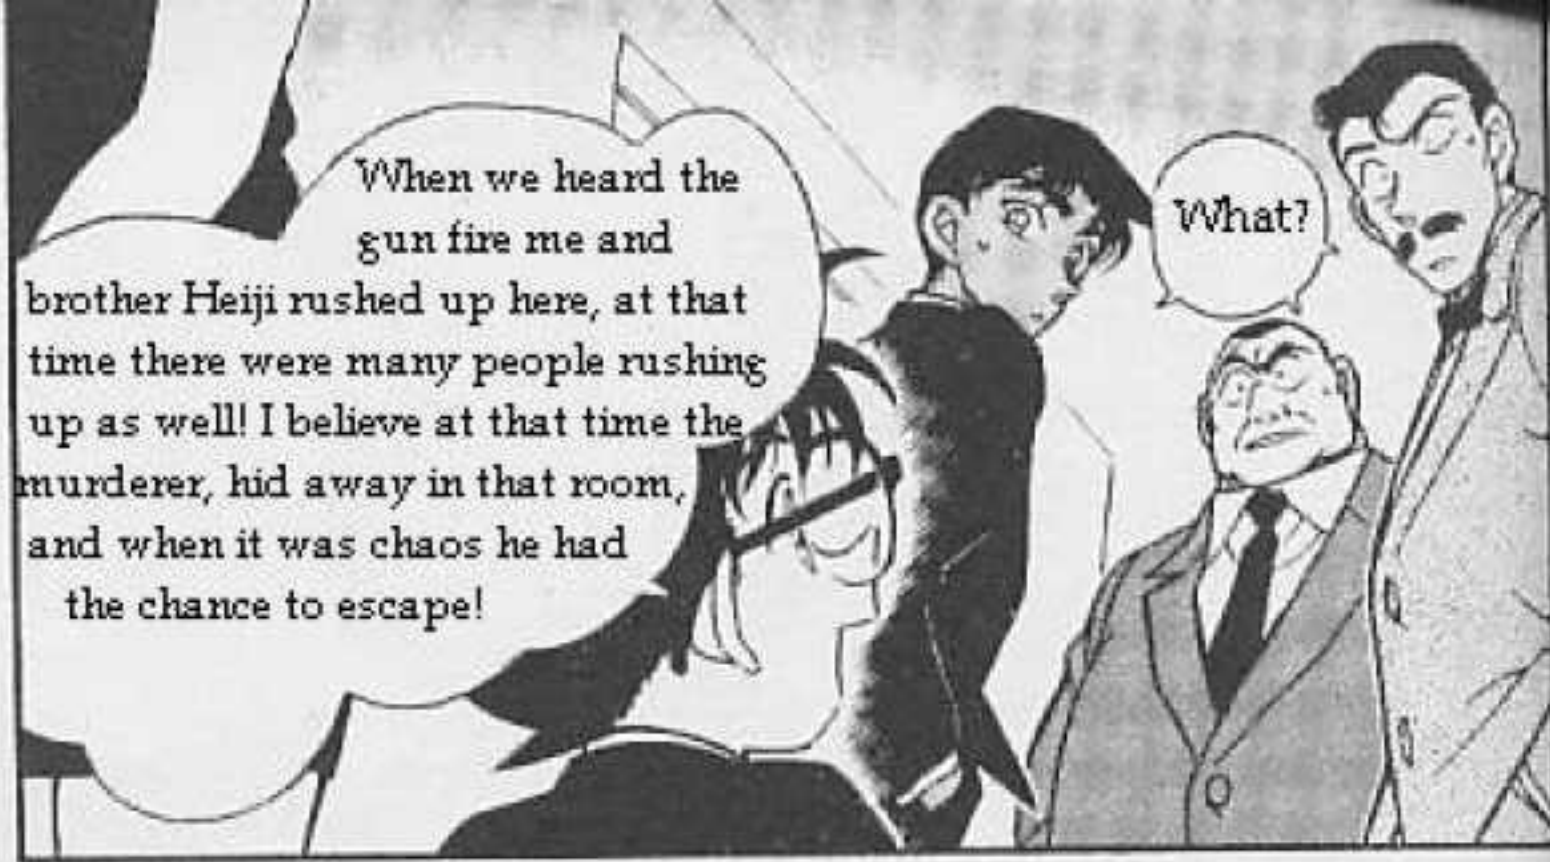

To look at the 'K' above the restaurant 'K3'

Those three asked us....

Outside the hotel.... were you about to go back in?

When we heard the gun fire me and brother Heiji rushed up here, at that time there were many people rushing up as well! I believe at that time the murderer, hid away in that room, and when it was chaos he had the chance to escape!

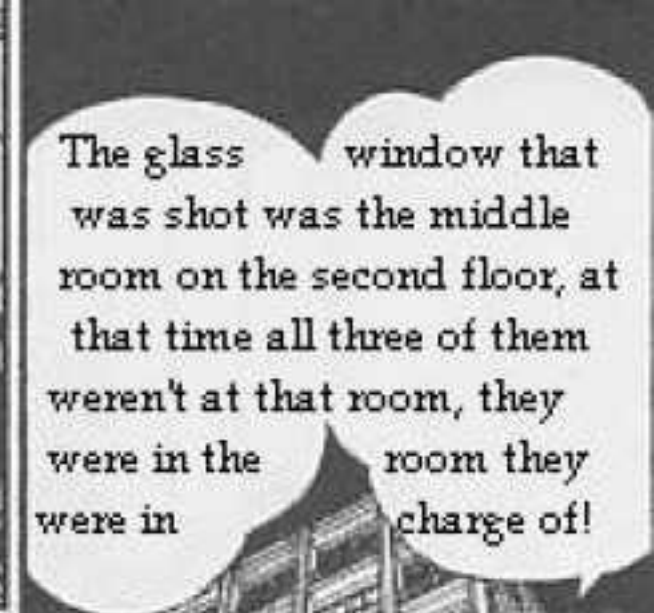

What?

Do you know which room they were in at that time?

Yes....

Isn't it Ran?

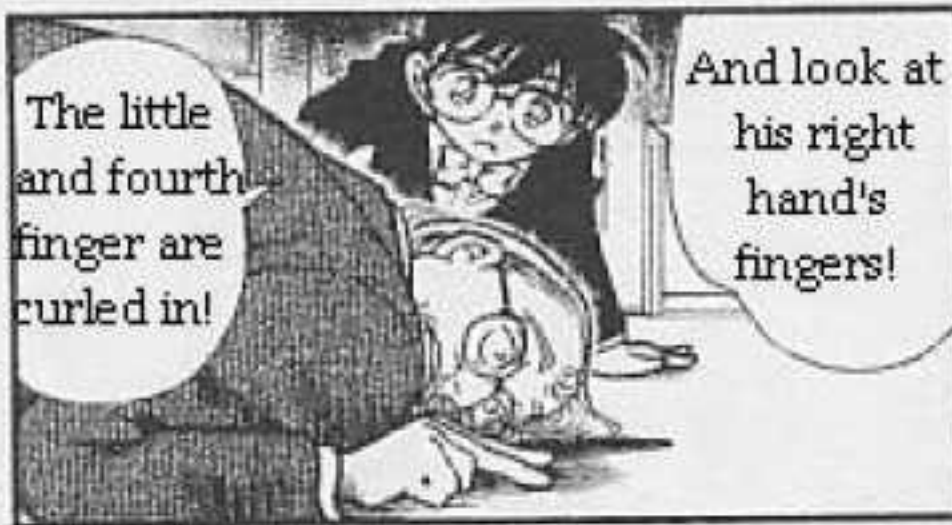

The glass window that was shot was the middle room on the second floor, at that time all three of them weren't at that room, they were in the room they were in charge of!

The, the belt!?

This uncle's left hand is holding something?

The little and fourth finger are curled in!

And look at his right hand's fingers!

That means all the guests are suspicious? The scope is too large then....

Eh....

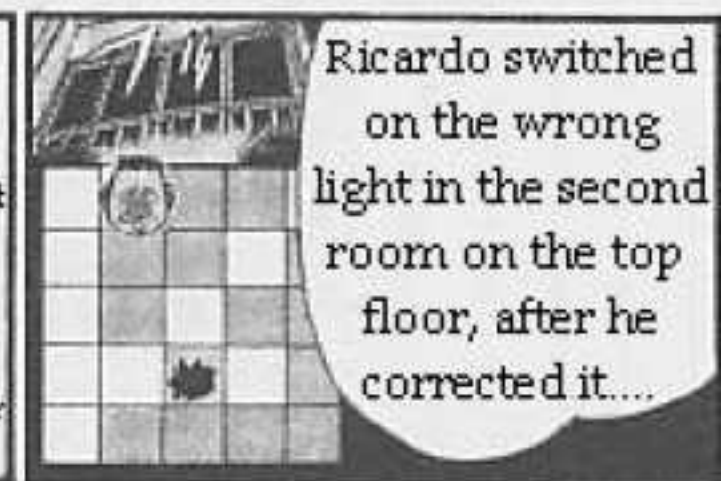

Then after...

I remember Mickey was in the room right above the scene of crime....

As everyone thought the 'K' was complete, a sound of gun fire suddenly broke the glass window!

Then the next is Ray, he was going to switch on the light that he forgot in the room far left of the bottom floor

Ricardo switched on the wrong light in the second room on the top floor, after he corrected it....

Yes.... the belt and three fingers before his death it's his....

Would it be...

Hei, Heiji....

Maybe he played rock paper and scissors with the murderer!

Maybe it's a guest that came to this party that did it!

So who is the murderer?

A while after, three of them stuck their heads through the window asking 'what is it, it looks impossible that they did it...

No.... but I saw the room light go on and off.... at first it was after Mickey opened the curtains, Ray switched the light on five seconds later.... and three seconds after the light was on there was the gun fire....

At that time did you see where they were?

Ricardo usually beats his opponents in four rounds, so there should be four fingers!

Ah....

Then what does the fingers represent?

Ricardo!

It's obvious that the murderer is the ex-champion of heavyweight boxing

Death note !!

He had a great success in Italy, Spain and America these three countries and have been in their country team

Ah! It must be the footballer Ray!!

Would there be anyone who takes off their trousers holding on to their belts?

If it was connected to the trousers, his hands could be on top of the trousers or on top of the belt?

But that doesn't mean it's got something to do with the belt! Can't it be related with the trousers, or maybe the deceased want to take off his belts to take his pants, maybe the murderer has something to do with the pants he's got on!

Idiot!

And it is in baseball

Eh... would the fingers not represent '3'....

Really....

But he also won when he was in England's Man U1!

There's no need

No

Then we'll have to ask the customers downstairs one by one....

1- Manchester United

Ho! Even football's gone!

Impossible! Mickey's team have never won before, and even if they win, in baseball matches there is no prizes such as a belt!

Yes! So the murderer is the baseball player Mickey!

When the pitcher throws the ball he uses these three fingers?

That's right... the evidence of only the final champion is able to wear on their waist

Belt

The murderer is one of those three foreigners...

What?

Only these stairs...

The lifts of the hotel don't work until the hotel is formally open...

That means those three used...

The light switch isn't broken... to make the light go on and off you can only switch it on and off, like an idiot....

pak.

Every rooms light switch is there...

clack

Customers come in this room the same time..

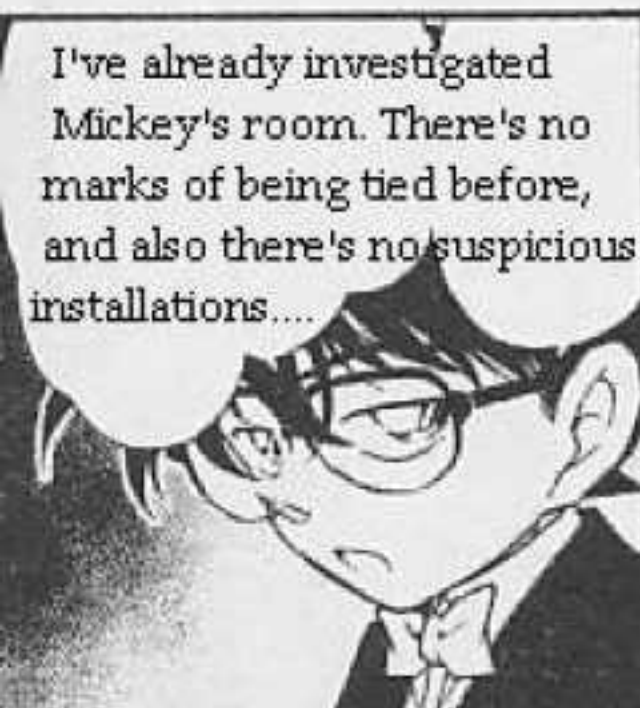

You'll be able to do it outside the room...

But if you tie a butterfly knot using a long rope on top of the curtain, only just pull the knot loose then....

Wait! We told Mickey to open the curtains, and he did....

I've already investigated Mickey's room. There's no marks of being tied before, and also there's no suspicious installations....

Mm?

Impossible....

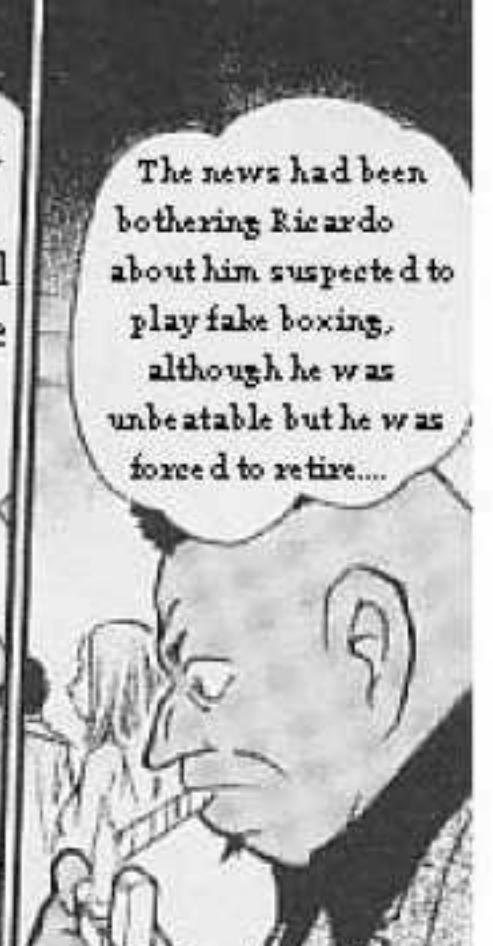

Now his fiancée is Japanese, he heard that their relationship is very good, and they're living together now....

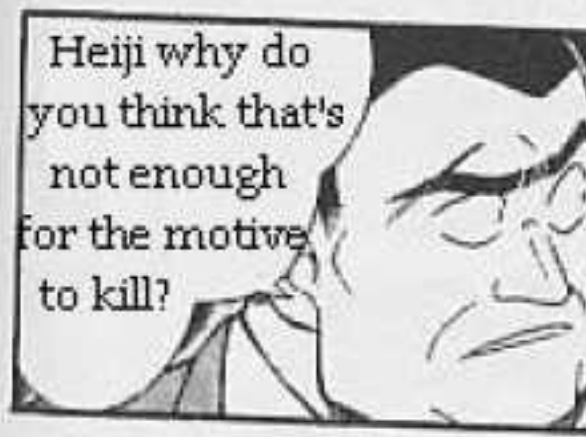

Mickey had an affair so now he's having a divorce....

Ray was forced out of the European football teams because he used banned drugs....

The news had been bothering Ricardo about him suspected to play fake boxing, although he was unbeatable but he was forced to retire....

Heiji why do you think that's not enough for the motive to kill?

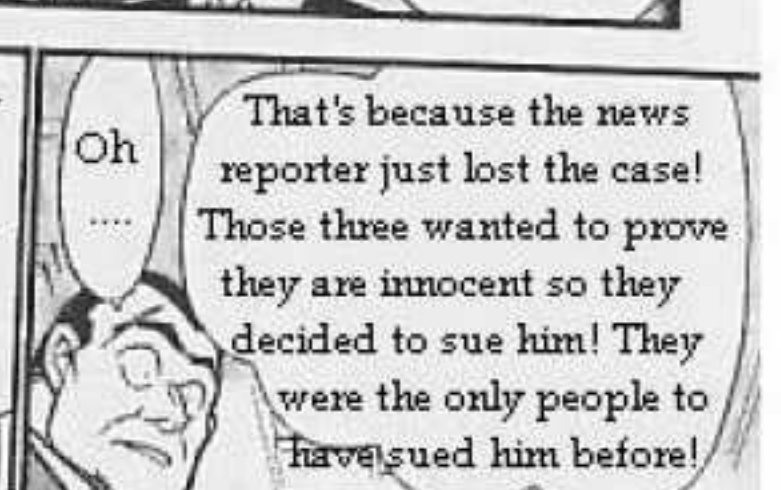

It doesn't look like they killed Adam because of the exposed news!

That's right....

So those three may have hated them, but not enough to kill him!

Oh....

That's because the news reporter just lost the case! Those three wanted to prove they are innocent so they decided to sue him! They were the only people to have sued him before!

That little tool may be hidden away when there was many people...

What did you say?

Ha... what are you saying? That person haven't got that thing with him there wasn't one in his room either...

The other two can't do it, but the other one can with the thing that he uses often, so he can operate the lights even away from that room...

Kudou... can't it be done?

That's impossible!!

That's rubbish!!

How are you...

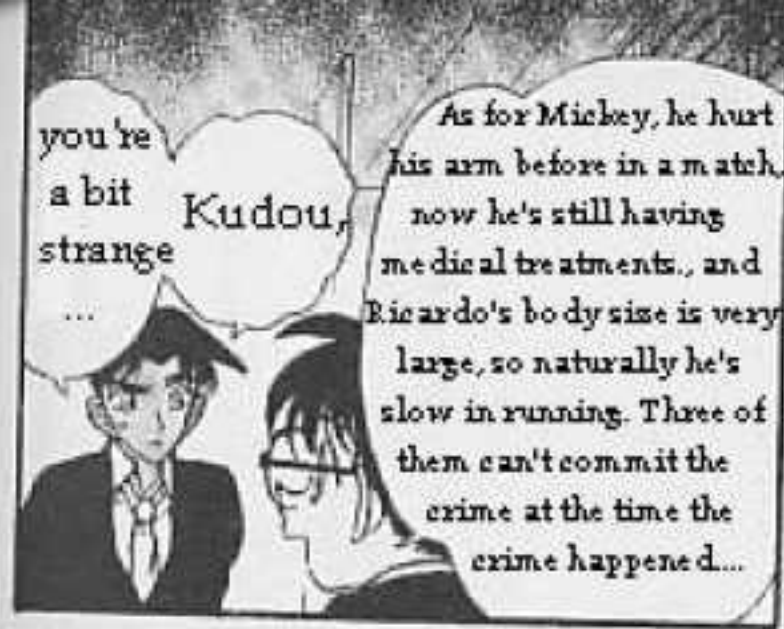

Kudou...

Wait and see!!

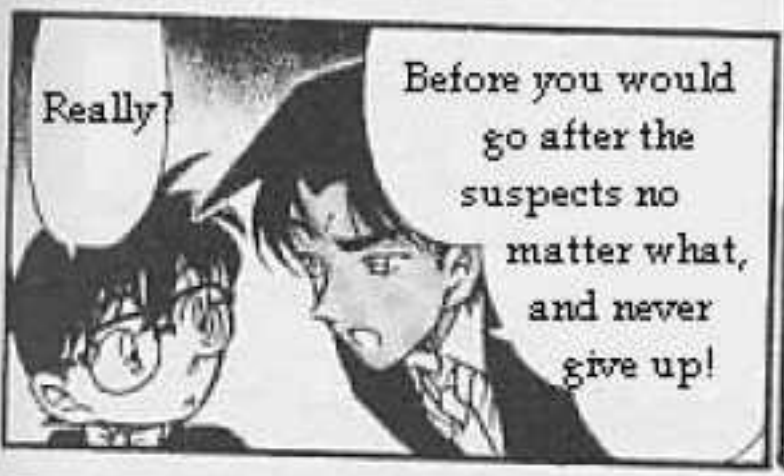

I'll go and prove it to you!

you're a bit strange...

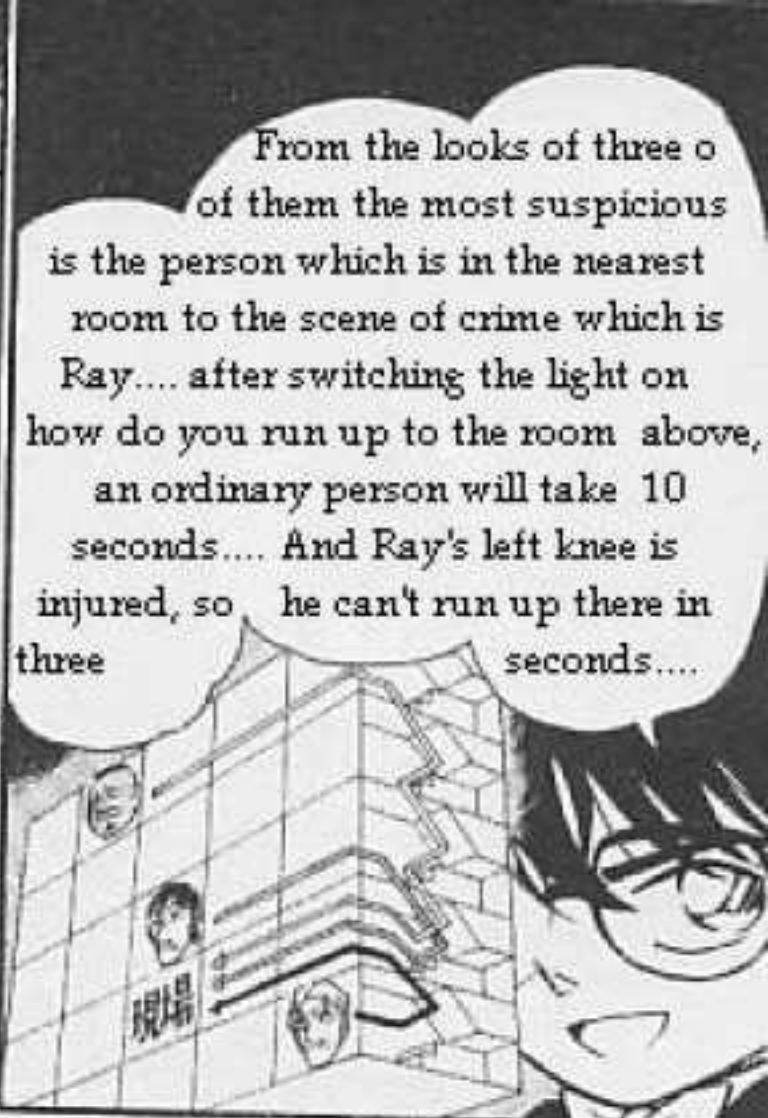

Kudou,

As for Mickey, he hurt his arm before in a match, now he's still having medical treatments, and Ricardo's body size is very large, so naturally he's slow in running. Three of them can't commit the crime at the time the crime happened...

Really?

Before you would go after the suspects no matter what, and never give up!

From the looks of three of them the most suspicious is the person which is in the nearest room to the scene of crime which is Ray... after switching the light on how do you run up to the room above an ordinary person will take 10 seconds.... And Ray's left knee is injured, so he can't run up there in three seconds....

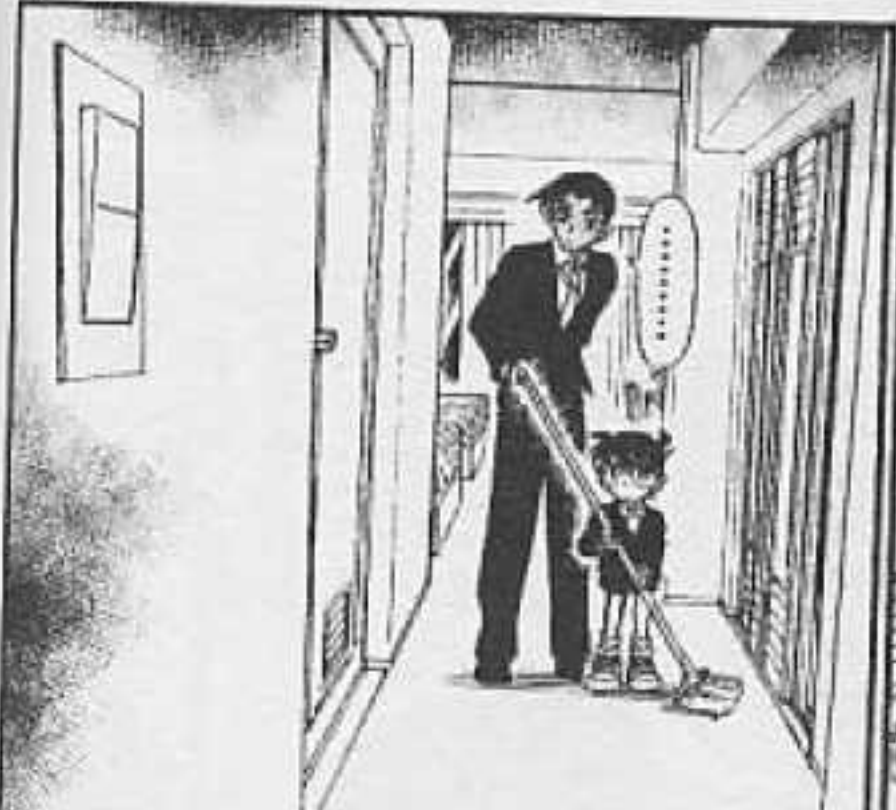

The whole set of the cleaning tools are here....

Inside the hotel rooms there's a broom?

Ah?

Think carefully! Even if you can run to the door, but the time from them to ring the bell and open the door is another 5 seconds... impossible!

It's a bit different....

Not only the broom, even the bust and dustpan are here....

This is!?

This

The truth is the truth....

Take away the impossible, the thing left is only that thing... even if it's hard to believe....

Kudou...

That what you always say...

My old injury still bothers me...
只是舊患發作而已....

Are you o.k?
沒事嗎?

May, may I ask....

Give you a break!
別勉強了!

Ah....

Ran! You dad is talking rubbish again....

I heard it in the restaurant....

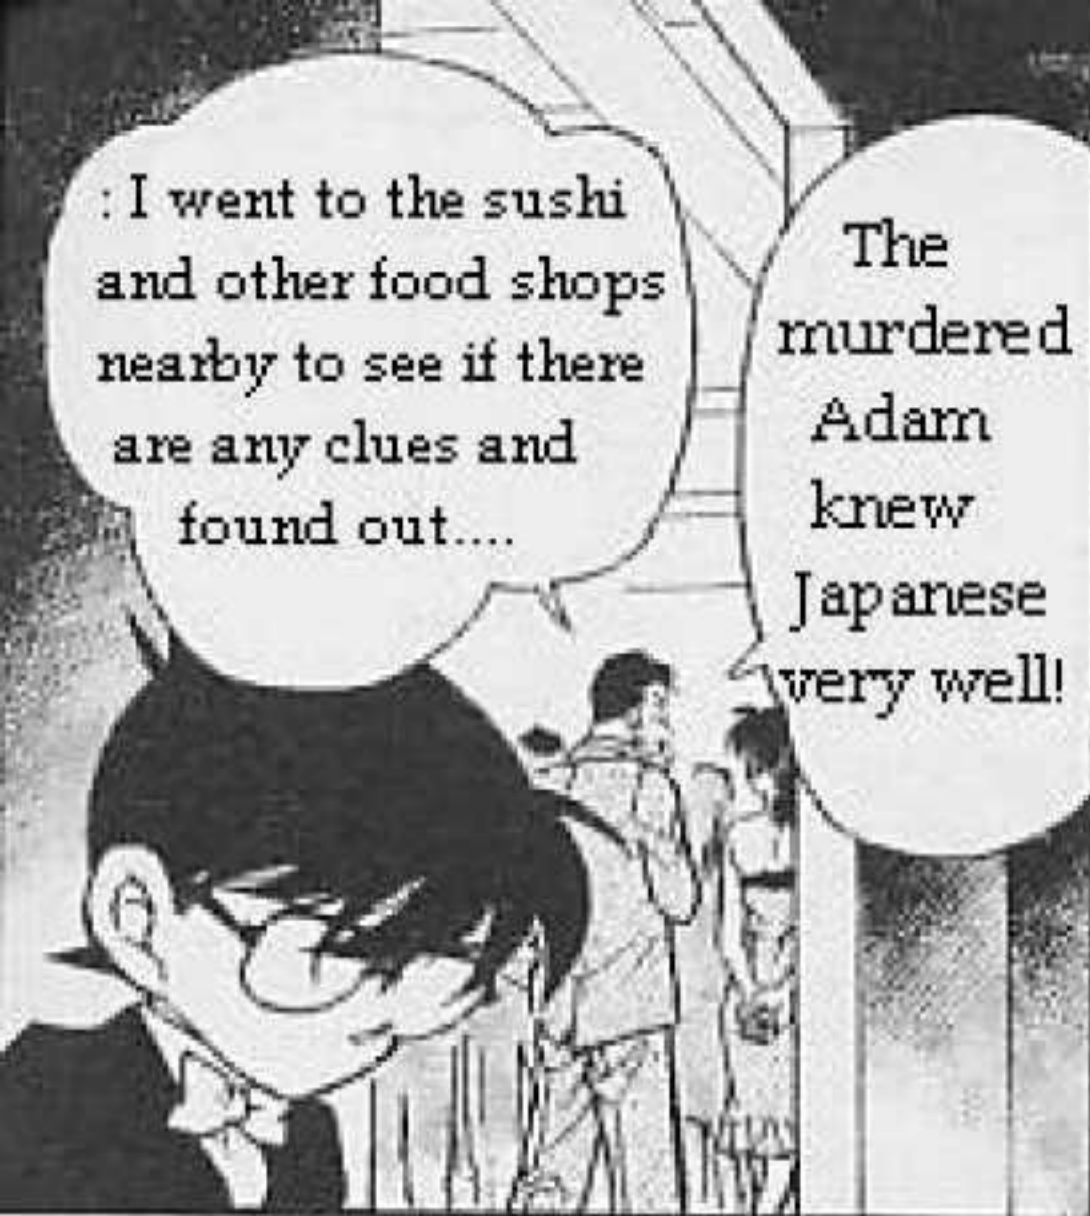

This time it's not going to be wrong!

Mm?

The worker was also shocked....

It's real!

: I went to the sushi and other food shops nearby to see if there are any clues and found out....

The murdered Adam knew Japanese very well!

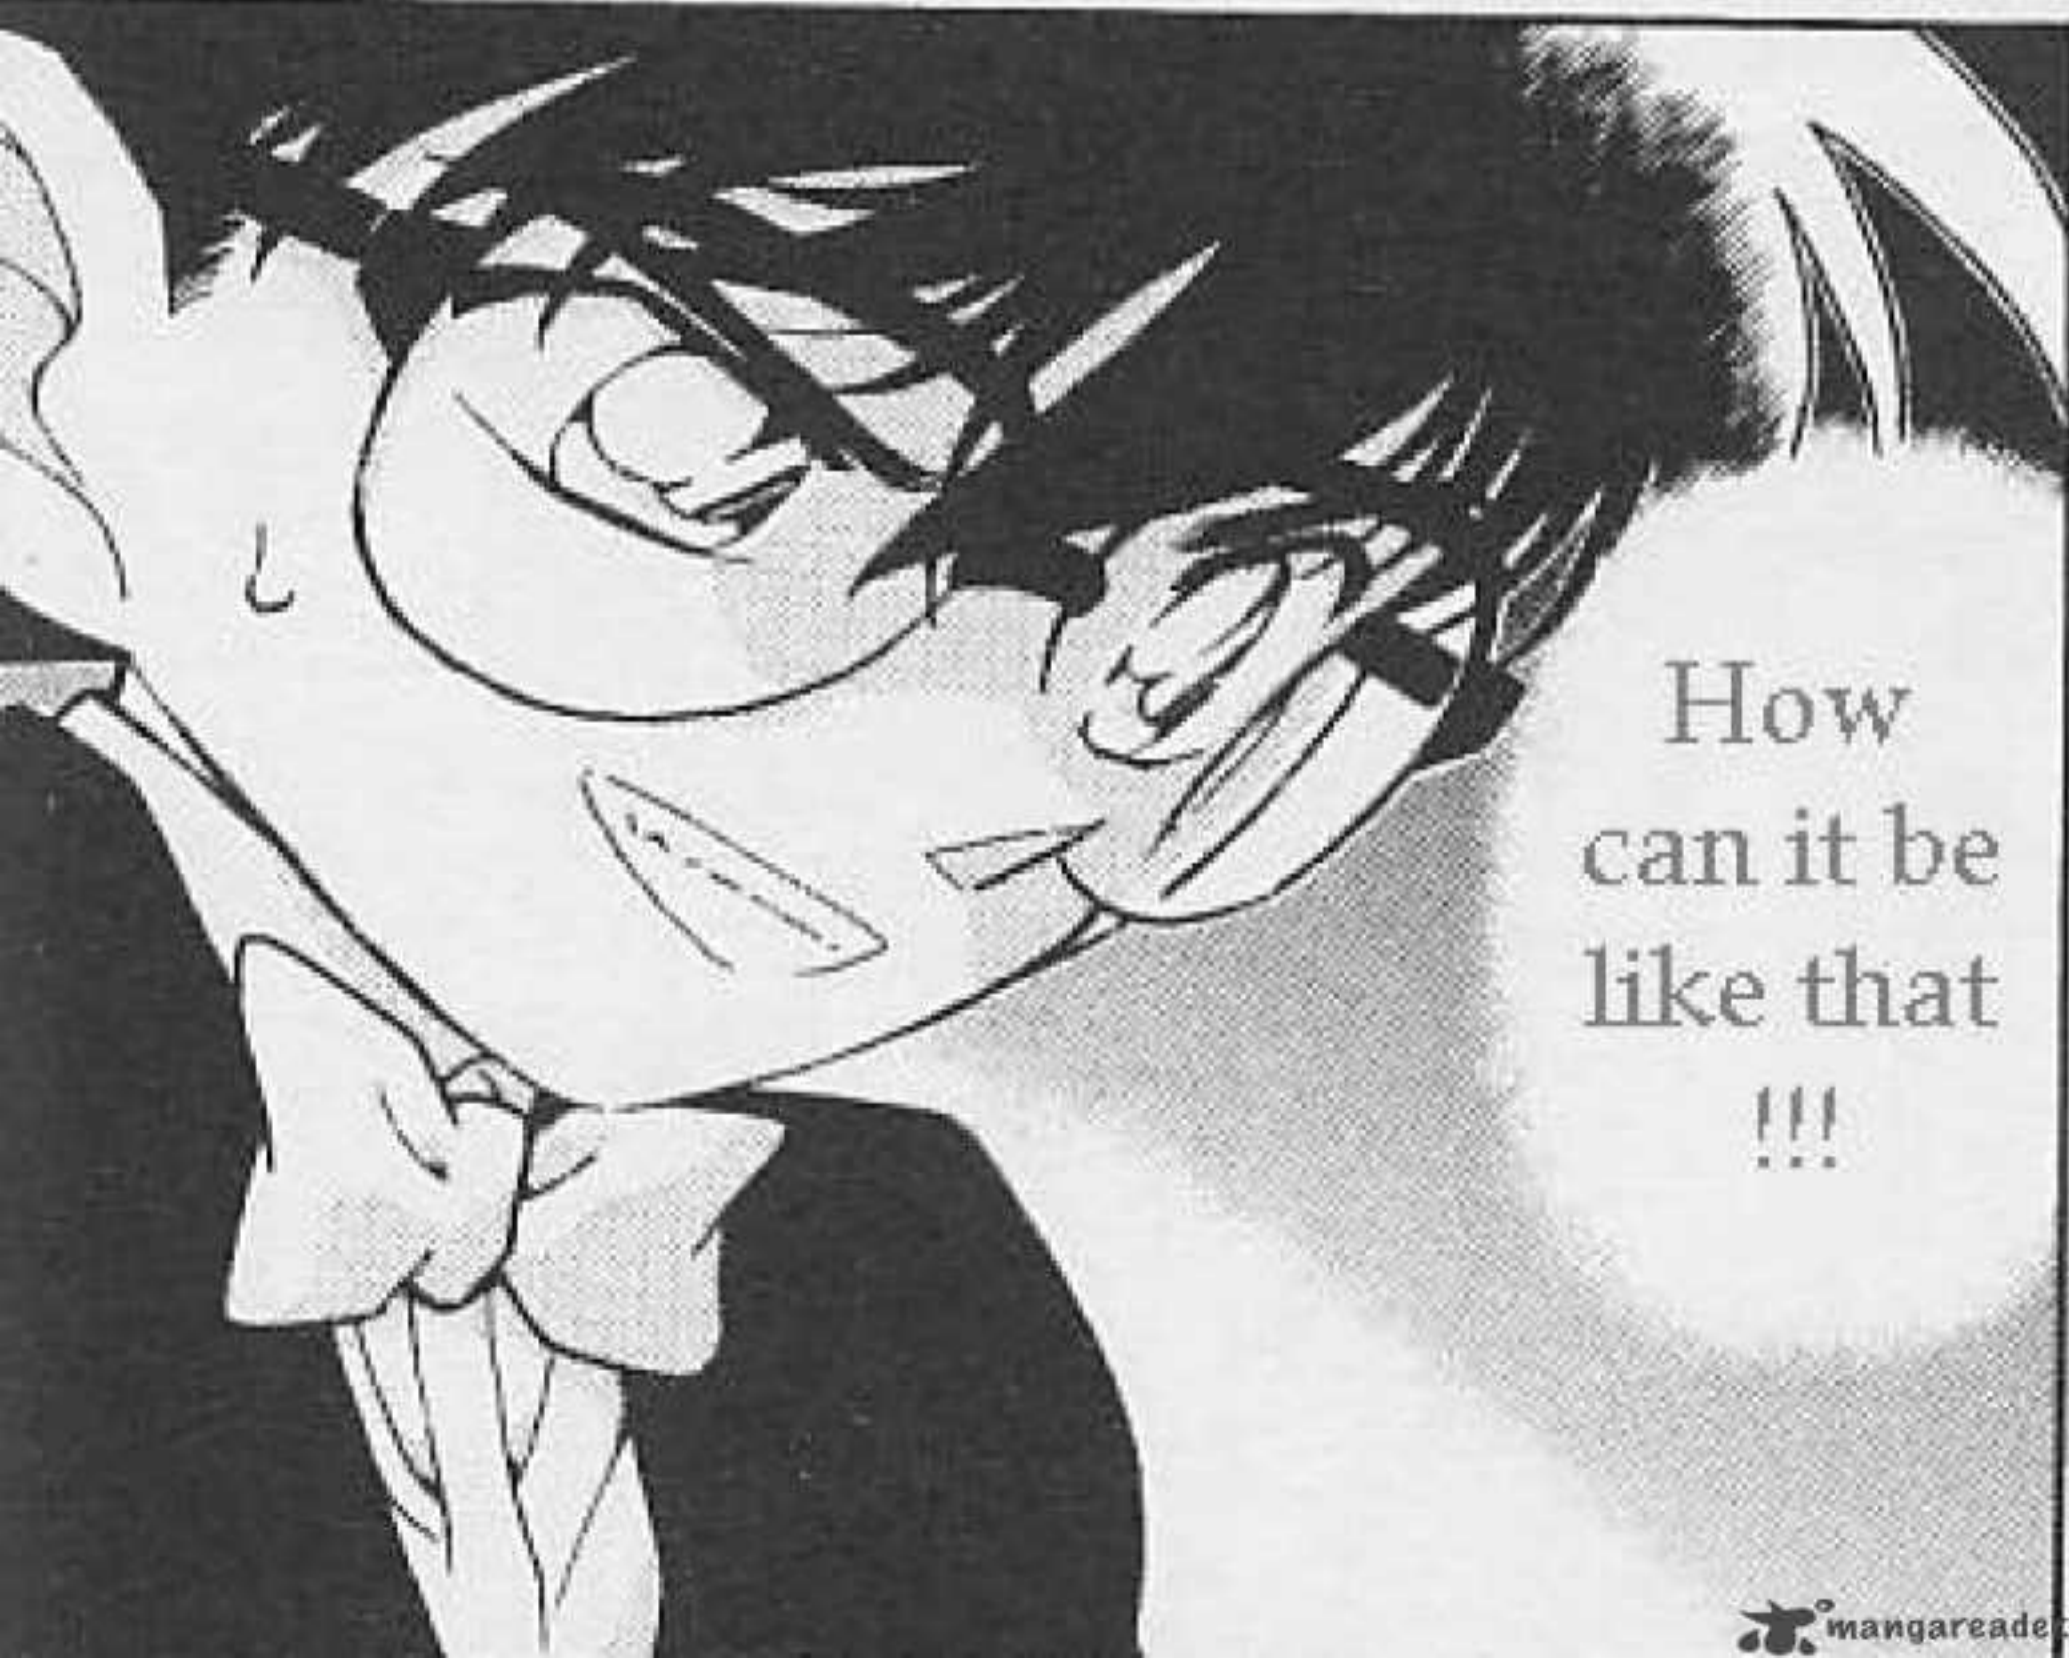

Like that...

So it's..

He even understood the word 'Bandou'!

How can it be like that !!!
