Erika's translation)

It's very boring  
.....

I don't come to E-Su that often, but it's not fun to swim in this body.

I wish I could return to my real body soon

Opps !!!

Kid, I'm sorry.

ha ha

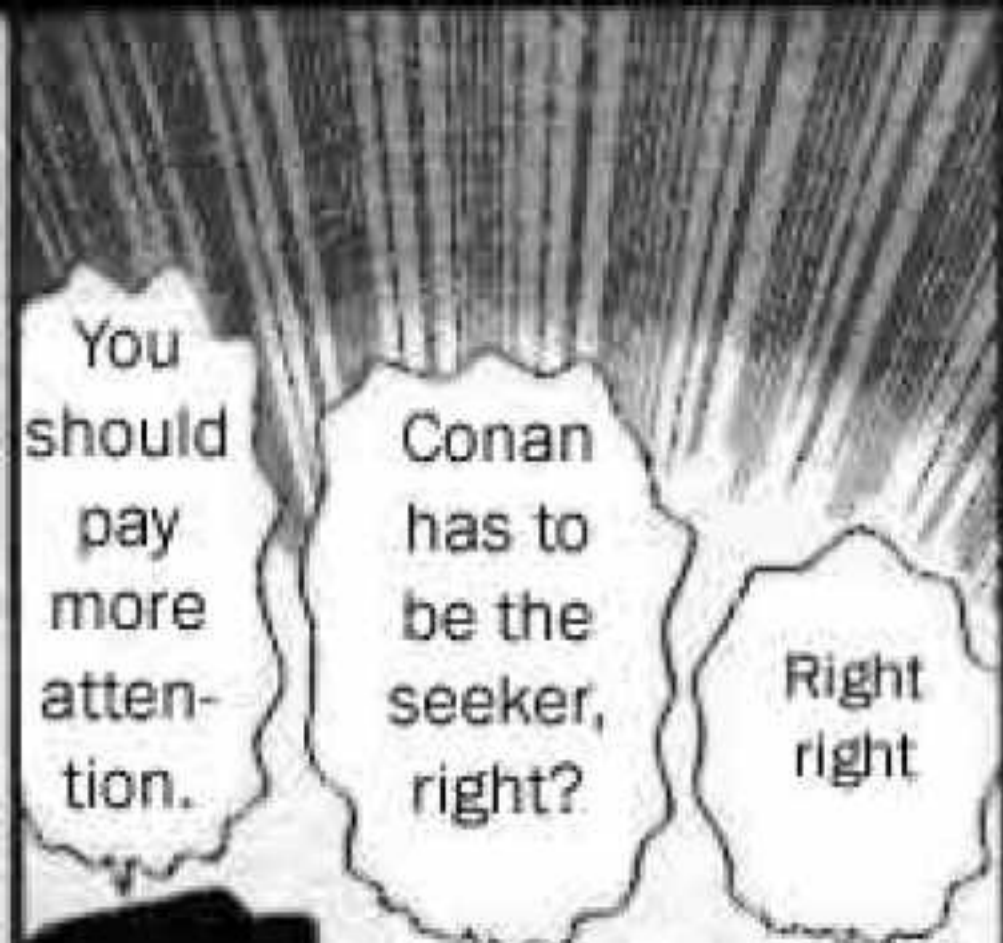

Are you OK?

ha ha

Being in this body a little longer may not be that bad

Hey Hey

You should pay more attention.

Conan has to be the seeker, right?

Right right

Let start a new game.

You have to count until 30 first, OK?

Hey ?

Between those two girl, who do you like most?

Eh ?

You like that kind of body shape, right?

Stupid. Who told you that?

Should be at least the shape of that girl wearing the blue strip swimsuit.

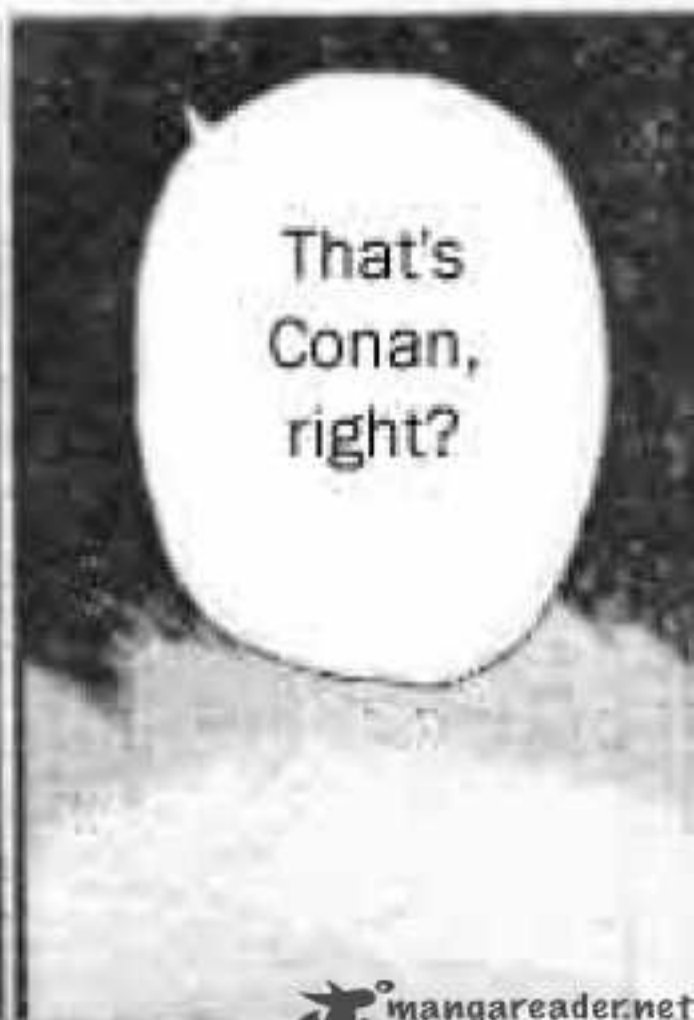

Wow !!!

I got it. You see her shape similar to someone's, right?

Ai

.....

That's Conan, right?

What are you doing here?

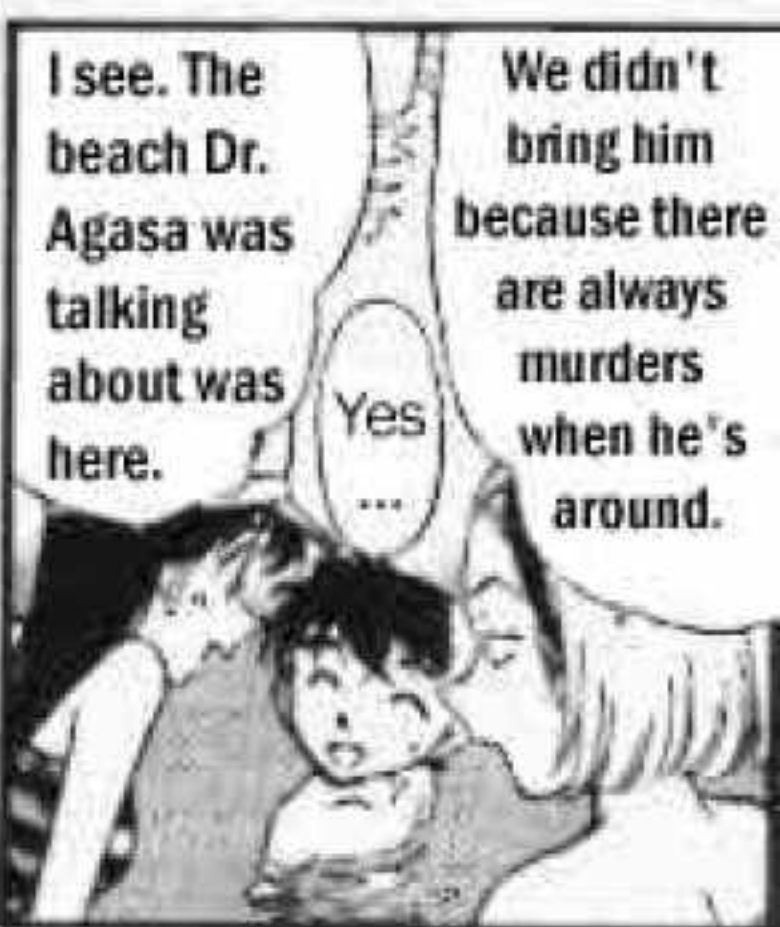

Ran !??!

Hey why is this stupid kid here?

No idea

Oh yeah, Ran was saying she was going somewhere with Sonoko.

I see. The beach Dr. Agasa was talking about was here.

Yes ...

We didn't bring him because there are always murders when he's around.

Who cares! It's more fun to have more people, Right?

You can run, but you can't hide!

**WJJE**

Take this !!!

And this !!!

**WJJE**

Have you feared enough ????

Next time, we'll get you!

Sonoko, you're so strong.

I'd say childish rather than strong

Where is Ran?

She went up to the by when you were getting the ball a while ago.

Haibara said she's tired so Ran went with her.

But she said she'll come back after she rests.

I see.

Her temperature is high, her skin is dry, and she isn't sweating.

Her pupils are contracting and her face is pink, but her pulse is beating fast.

She surely has a sun-stroke.

Should we take her back to the hotel?

She'll be all right. Just keep her forehead and chest cool with wet towels and stay under shade. She should feel better soon.

Doc-tor

I asked for ice from people around here.

Oh, thank you

How is Ai doing?

Her temperature is going down. So, she should be alright.

Glad to hear that!

Next time, don't hesitate to tell us if you don't feel good, OK?

Ai ?

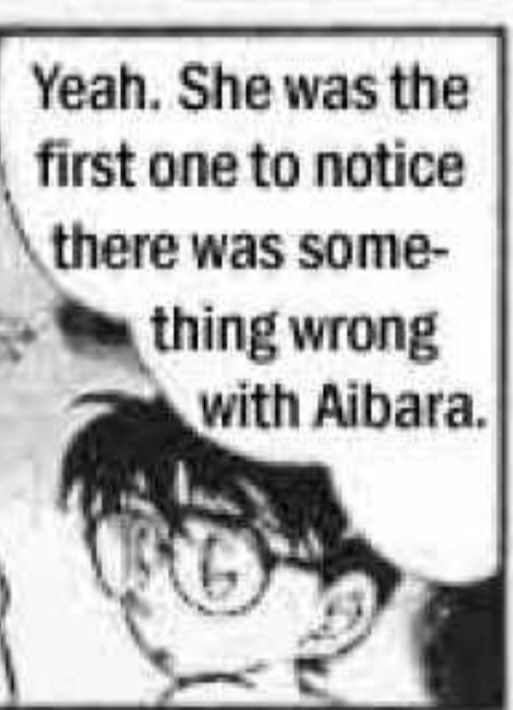

If there isn't anything else, I'll go back to everyone.

ウツク

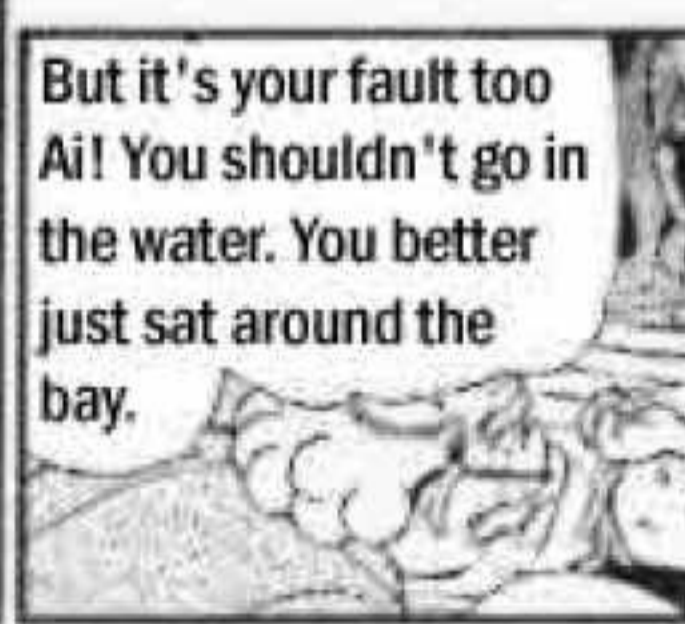

Ok

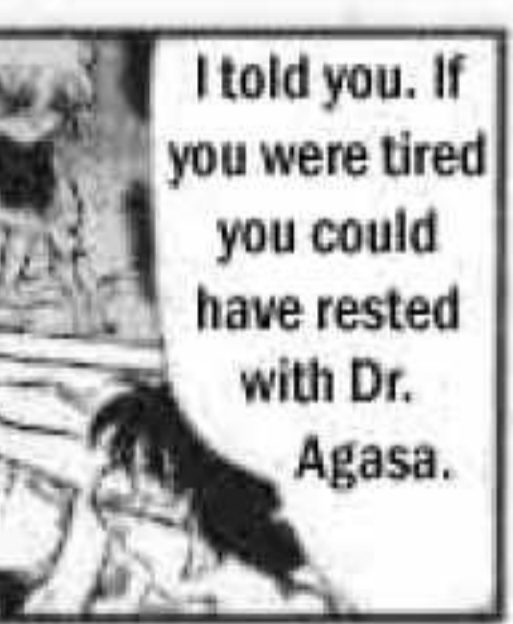

Ran looked worried as well.

Yeah. She was the first one to notice there was something wrong with Aibara.

But it's your fault too Ai! You shouldn't go in the water. You better just sat around the bay.

I told you. If you were tired you could have rested with Dr. Agasa.

If I did that, it would have been like I'm trying to runaway.

Huh ?

Runaway from what? Shark?

Stupid, there aren't any sharks in this beach!

No. It's not sharks.

Not sharks, but dolphins

Yeah... they are the stars of the sea

They are totally different from sharks which run away from the dark, cold, bottom of the sea.

Hey what are you saying? It's sharks which are more fierce.

Right. They are more scary.

I'm very tired. Could you go somewhere else?

?

Hey, what are you guys doing?

Huh ?

Taking a boat out, what if it bumps into someone!!

Who cares! It was just lying on the beach, and the wave is mild. So it'll be alright if we hold it still!

Hey, Sono-ko!

I'm sorry we'll bring it back immediately

Grrrrr .....

Hey Noboru, you don't have to scream

That scared other tourists.

Yuta ...

This guy just got dumped by a girl, so he has been having a bad mood.

Stupid!

Actually, it was me who dumped her!

Yoshizawa Yuta (34) Fisherman

Shimojo Noboru (34) Fisherman

Let us take care this boat from now.

Oh, but... We were the ones who took it out.

Don't worry, cleaning up the beach is also

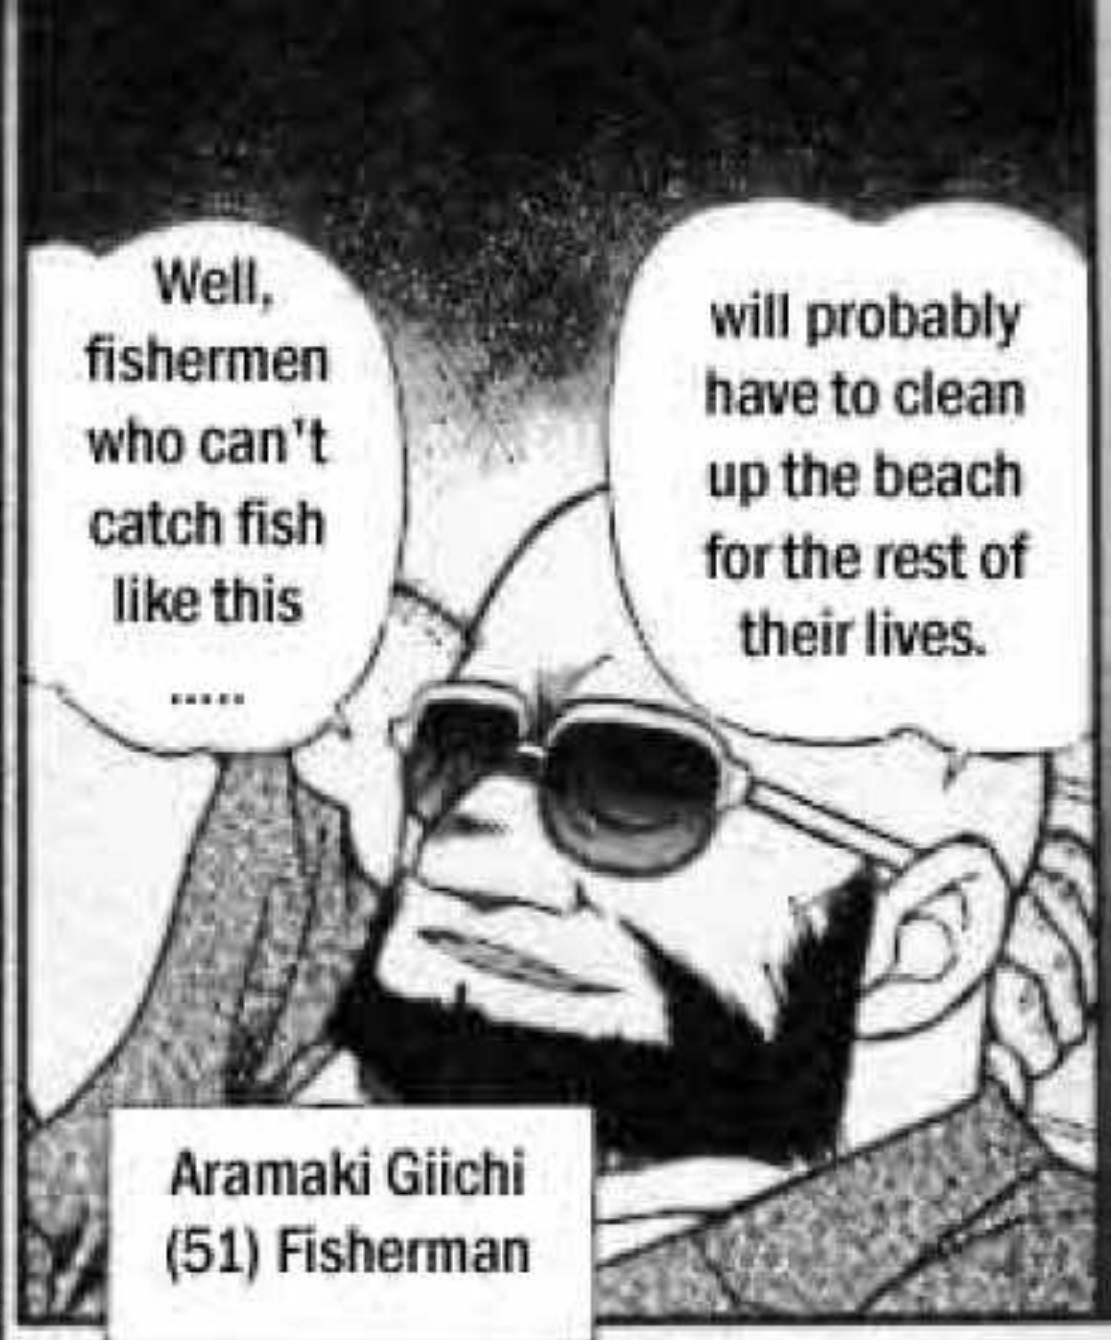

a duty of the life guards like us.

Oh... You are Life guards ...

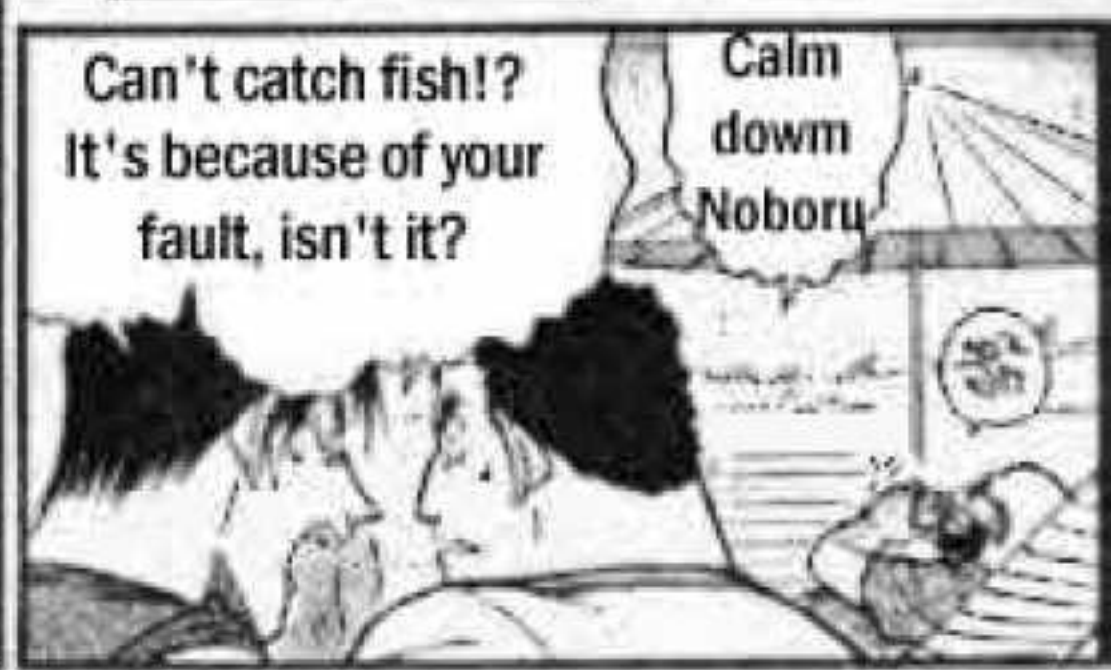

I thought you were fishermen but I guess I was wrong.

Well, fishermen who can't catch fish like this .....

will probably have to clean up the beach for the rest of their lives.

Aramaki Giichi (51) Fisherman

Can't catch fish!? It's because of your fault, isn't it?

Calm down Noboru

OK, Mr. Aramaki, tonight at 8 pm, we'll be waiting at the Queen Hotel's restaurant "Tompu".

You better come!!

Of course, I'll come! You're the ones who shouldn't run away!

Hey Ran, the restaurant we made the reservation for is ...

Yes, the Chinese restaurant "Tompu"

Huh, you guys  
came here to  
have dinner,  
too?

Yeah. We stay  
at this hotel  
as well.

Would  
you like  
to eat  
with us  
?

Where  
is Ai  
?

She is  
sleeping in  
her room.

She said she  
was not that  
hungry.

Real  
ly  
?

What? You seem  
to care a lot  
about that  
brown  
hair girl?

I just want to talk to her.  
That's all. She's never  
spoken to me. And she  
tries to ignore me .....

She may not  
like me?

That's  
not  
true.

She once told  
Conan  
.....

Huh  
?

She said, "That kind of body is good for reproduction" !!!

What .....

What ????

Conan, what are you guys talking about!?

N..no Haibara said that, not me ...

What? Isn't it a good compliment?

Does it mean eatable things?

No. It means calculation by your heart.

Doesn't it mean she has a good butt?

Hey, did that kid say anything about me?

Um .....

She said that you have a small butt.

Oh, really .....

Aren't you happy? Small is good, isn't it?

ha ha ha

Hey !!!

Hey! You're the gangs from the afternoon ...

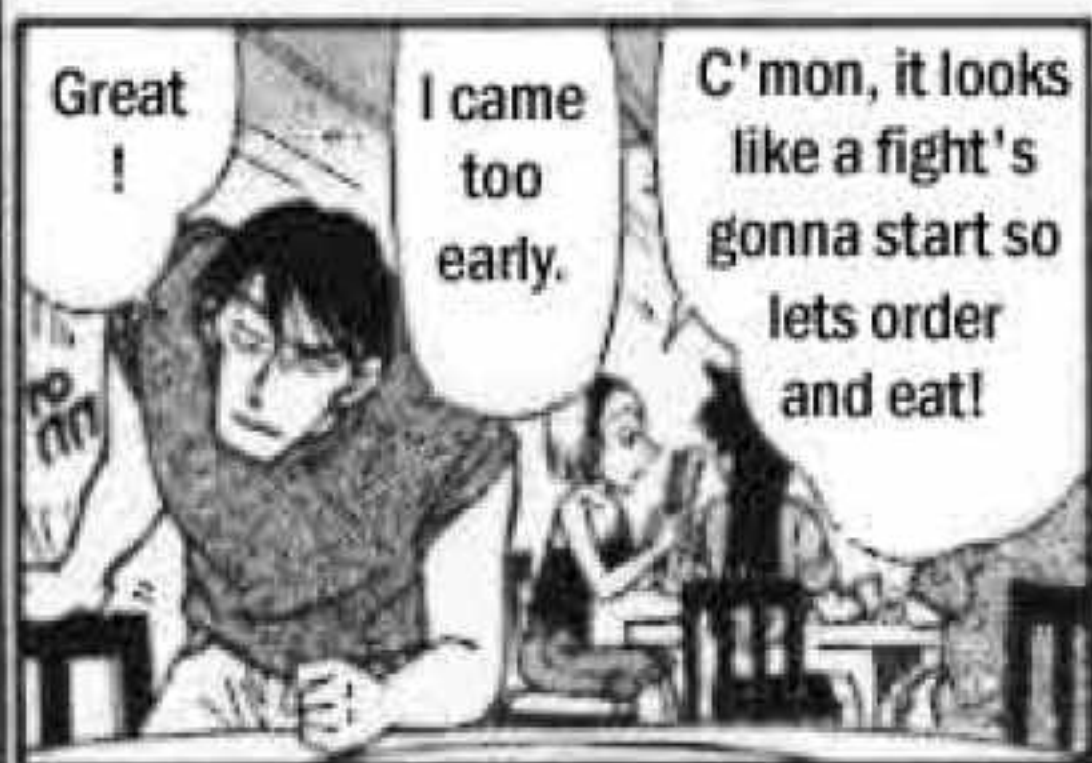

Hello .....

Excuse me, can you tell me what time it is right now?

My watch was broken.

It's 7:12 pm ...

Great !

I came too early.

C'mon, it looks like a fight's gonna start so lets order and eat!

We did not come here for a fight.

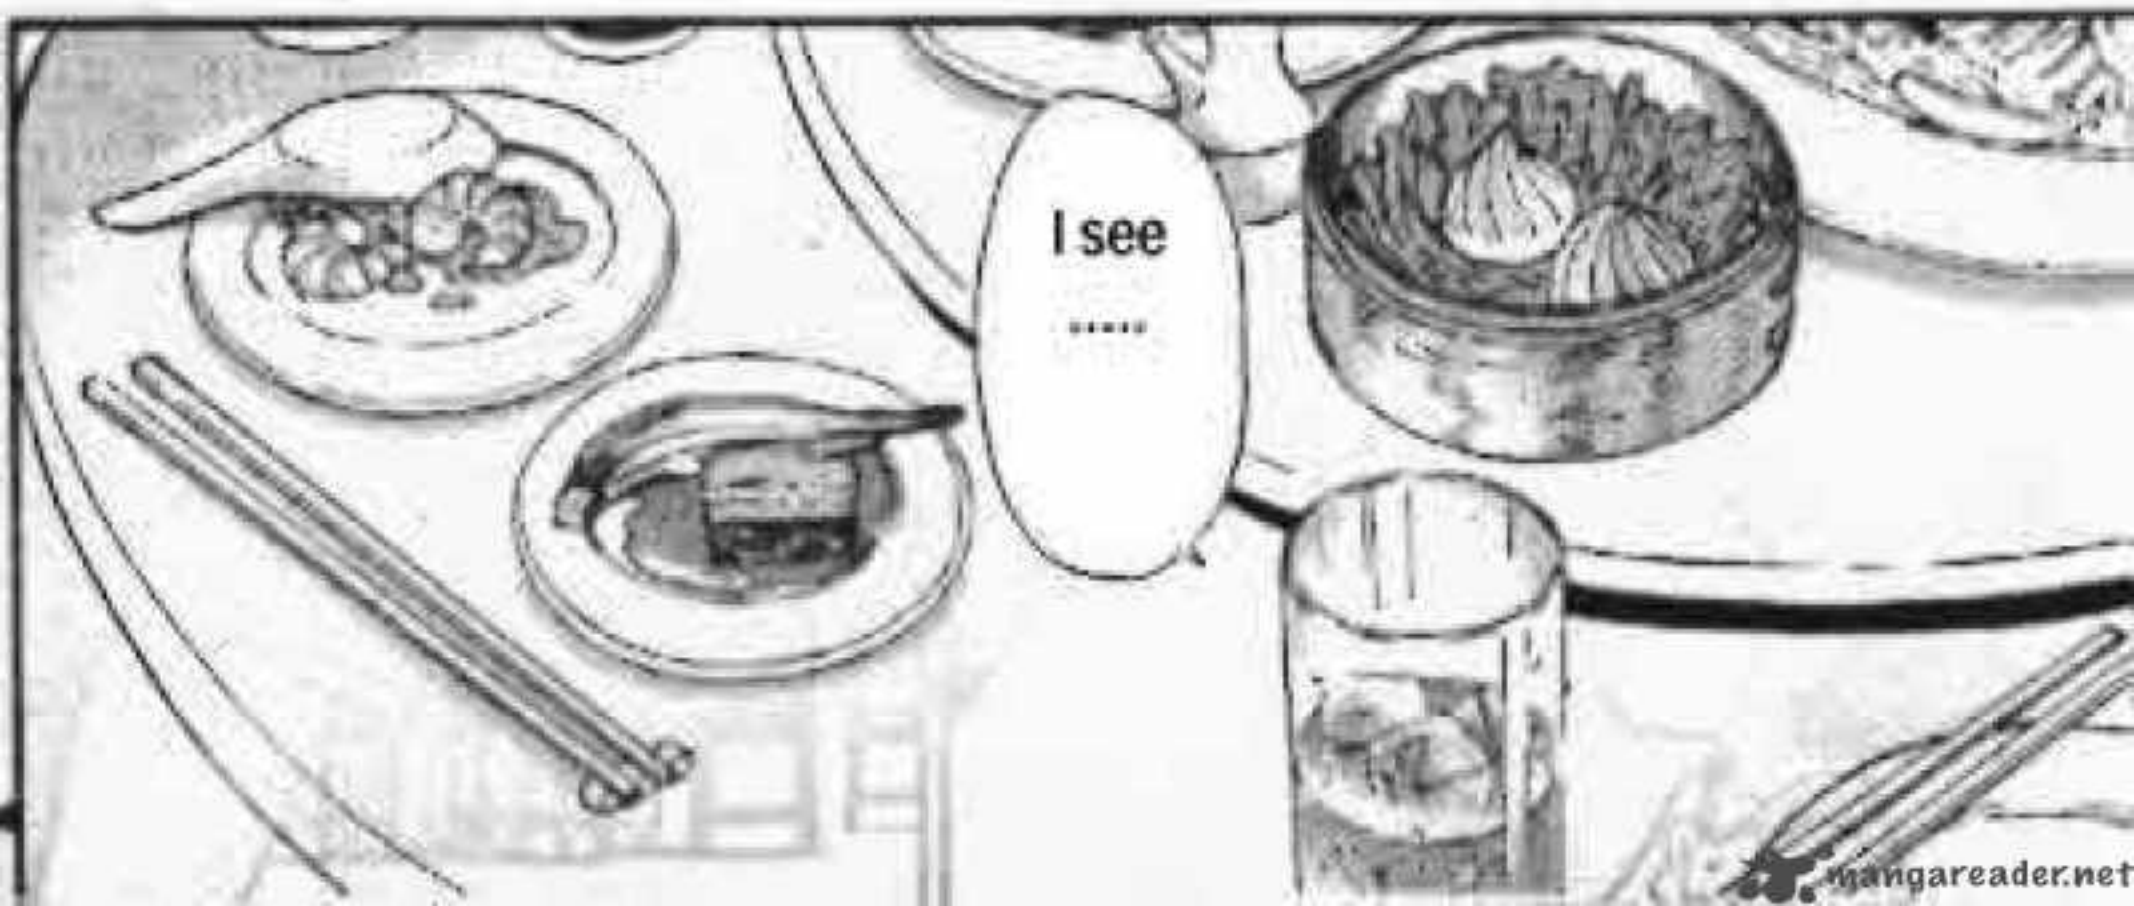

But we're gonna teach bad guys some rules.

Rules ?

Yes ...

Rules of nature that you should not violate.

I see .....

He doesn't care where he fishes or uses a dragnet.

We always fish within the limited number of fish and allow young fish to grow up. But, he just comes out from nowhere and fish as many as he wants.

That's why tonight, we intend to teach lessons to that old man !!!

that how long it'll take to fill the empty ocean with full of fish again!

Can the law punish him ?

It's no use.

Although there is a law against it, in this area, the law is just an empty paper.

He doesn't care it. He said that he would still catch fish as many as he wants.

Hey Yuuta, you're late.

I'm here on time at 8 pm. You were too early.

Huh? Didn't Nobutsugu come with you? He was excited to talk with the old man about something, wasn't he?

He told me that he would stop by at his father's grave first, so he'll be here late.

Right, today was the same day that they died.

Who were they ?

Nobutsugu, who is on his way here, his father and our fathers died on the same fishing ship .....

when the ship faced a big storm 8 years ago .....

Ha ha ha ha ha  
ha ha

Well, people say that dying in the sea is every fisherman's wish, isn't it?  
That's a really good compliment  
They are getting along too well.

Sonoko, you are being rude.  
What?  
That's OK.  
She better not be drinking.

It's true that our fathers still went fishing when they already heard the storm coming.  
Who said it's because of the storm .....

That guy  
did sink our  
fathers'  
ship  
!!

Aramaki's  
pirate ship  
really  
did it  
!!

Nezu Nobutsugu  
(35) Fisherman

Hey, you're  
telling that  
story?  
Nobutsugu?

It's  
getting  
more  
annoying.

Anyway, where is  
that pirate? He  
should be here  
by now!!

It's  
already  
8:40 pm  
...

He probably  
forgot to  
come, went  
drunk, and  
fell asleep

He better  
not be, I'll  
wake him  
up!

click

It's useless.  
We already  
tried to  
call him  
earlier.

Ring  
Ring

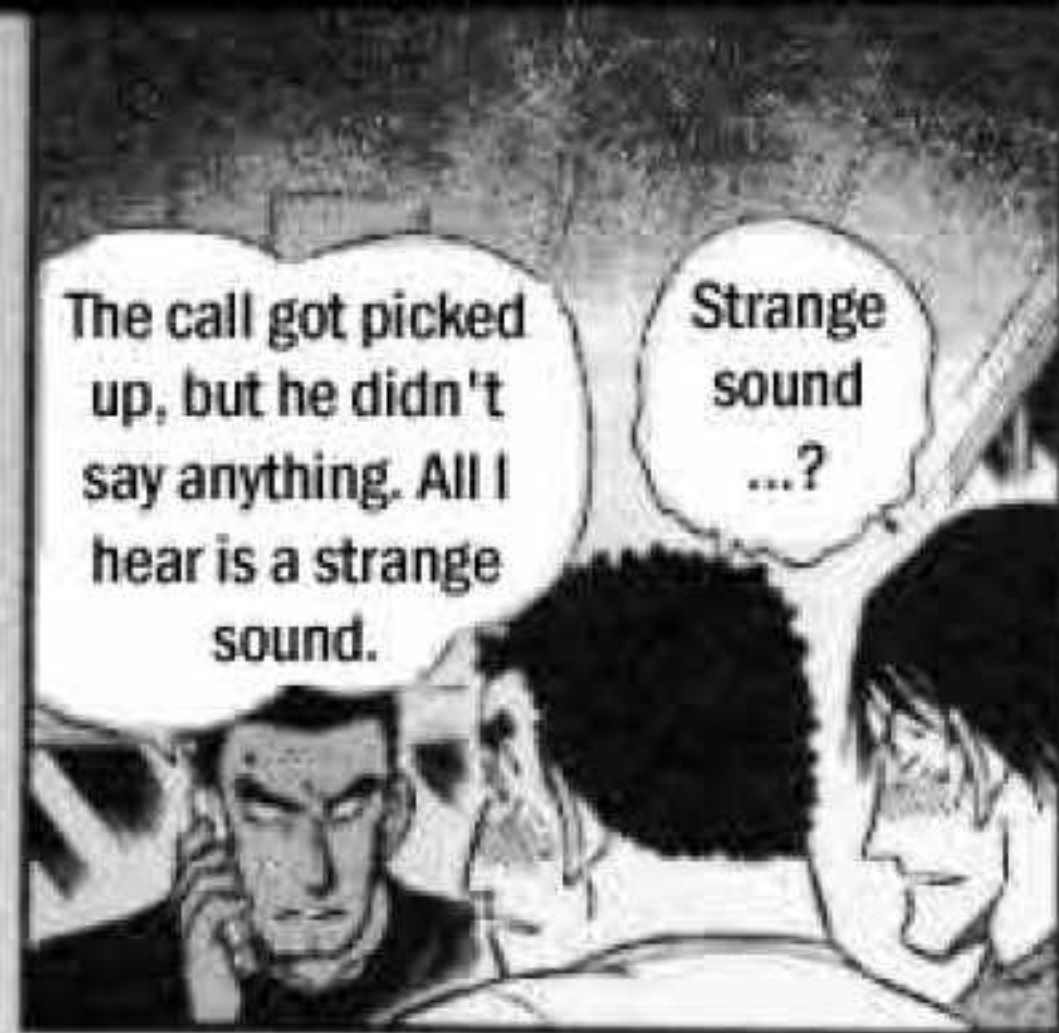

Beep

Hello, is  
anyone  
there?

Huh  
?

He  
picked  
up the  
call?

The call got picked up, but he didn't say anything. All I hear is a strange sound.

Strange sound ...?

This is .....

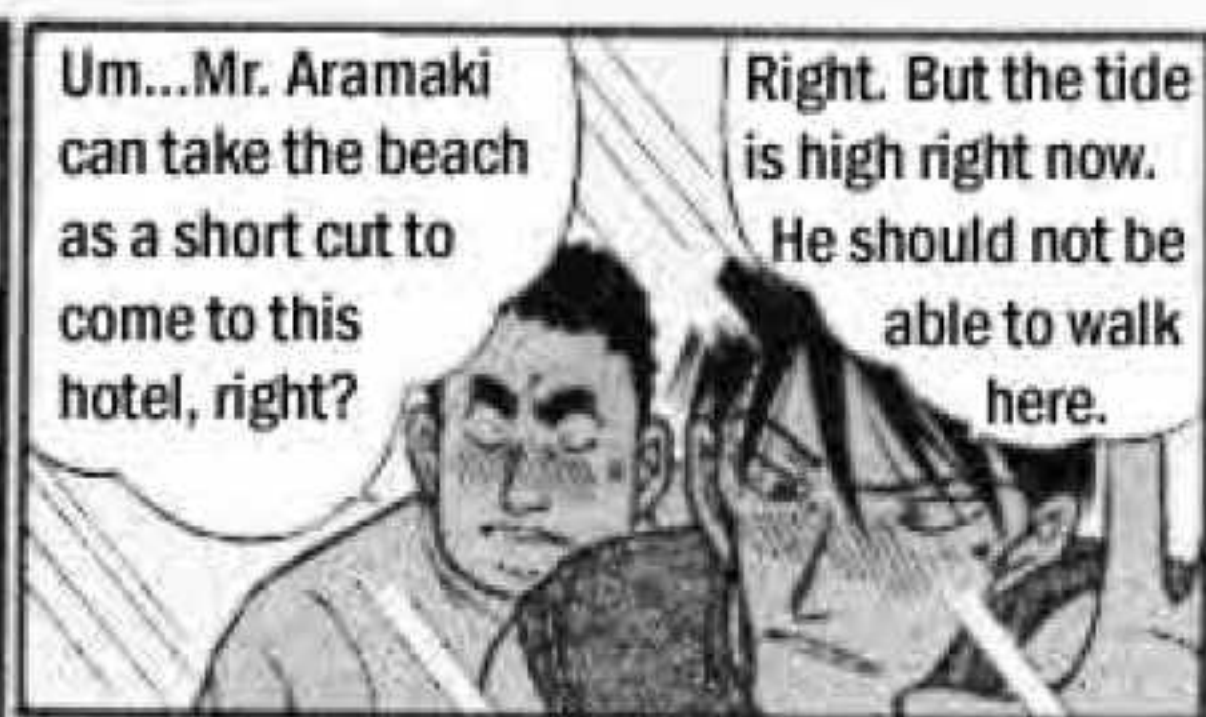

[ Splash sound ]

Waves !?

Beep

I lost the call ...

Um...Mr. Aramaki can take the beach as a short cut to come to this hotel, right?

Right. But the tide is high right now. He should not be able to walk here.

Do you think that old man ignored our meeting and comfortably went fishing instead?

Why would he?

Well, when we wake up a little more, let's go check on him.

Yeah... That's a good idea.
