The criminals are in a police car?

What?!

I assure you! If we don't find them before night time they will get away!

But ...

Yes. It's a deduction that James has left us with the clue of P&A ...

A police car?

No, now they are pretending to be in a police car!

You found the kidnappers that Conan was talking about?

What happen Yumi?

PANDA ?

PAN...

"p"
"A.N.D"
"A"?

Put the letters together and read it together ...

There's nothing between P&A and police car.

Everything is cleared now !

The japenese cars are white and black like pandas ...

Of course !

I don't think that a stranger know this code...

You told me that it was an american that was taken..

It's true that some peoples call police cars "Pandas" but...

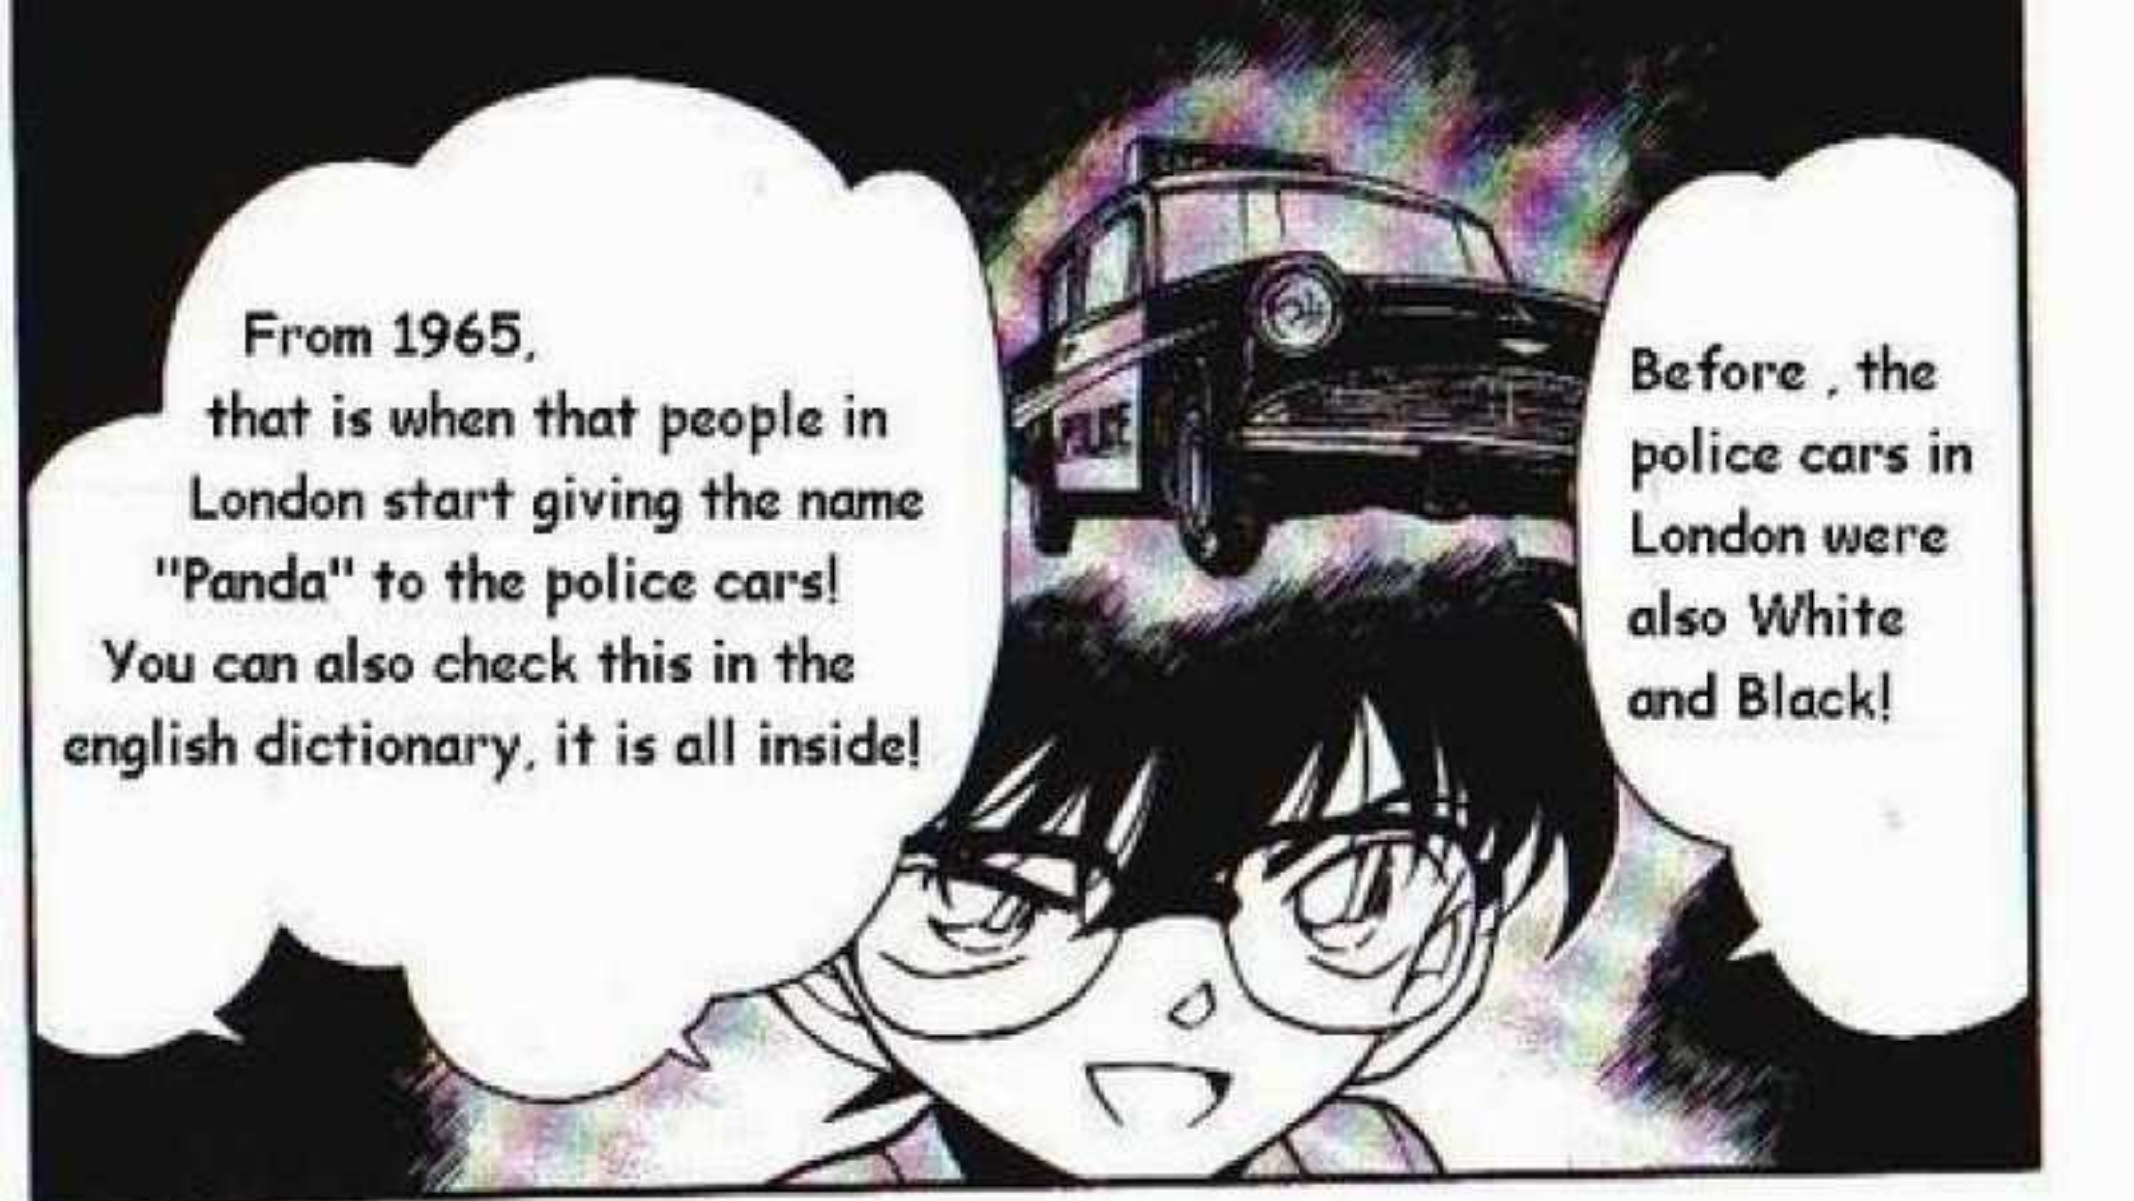

BRAVO CONAN!

I don't think so, James was born in London, in this case there's no doubt that's a police car.

Yes...For a stranger, this hypothesis is very strong ...

And also what if he saw a white car with some parts of black on it, he must think them as panda.

From 1965,
that is when that people in
London start giving the name
"Panda" to the police cars!
You can also check this in the
english dictionary, it is all inside!

Before , the
police cars in
London were
also White
and Black!

But I
didn't
see
any
stra-
nger...

HEIN
?

Come to think
of it...I did
inspect a police
car a while
ago...

From
which
decade
did he
come?

AH...

A young american
won't think right
away of putting the
word. But someone
like James whos
associate with the
generation would !

No...They had a
suspect with a
hood on and sitting
in between
them...

The po-
lices in
the car,
were th-
ey wei-
rd?

That's
it !!!

That
...

AH!!

Not so fast...

Like always your plan works like a charm...

We'll arrive at montains of Gunma before that night falls !!!

Just like on the roulette!!!

VRRRRRR

A simple accident of circulation, and a cop checks cars one by one?

Don't you find it strange?

If there is a other barra-ge...

If something happen we could always point our gun at him...

No need to worry in this case, we still have a hostage...

You think that the cops know about this ?!

VRRRRRR

VRRRRR

We past with force?

4IC

Doesn't this worry you?

We already ask the department to put a barrage. So It's not necessary for us to go...

We are already in the department of Satama ?!

Say, inspector...are we over doing this...

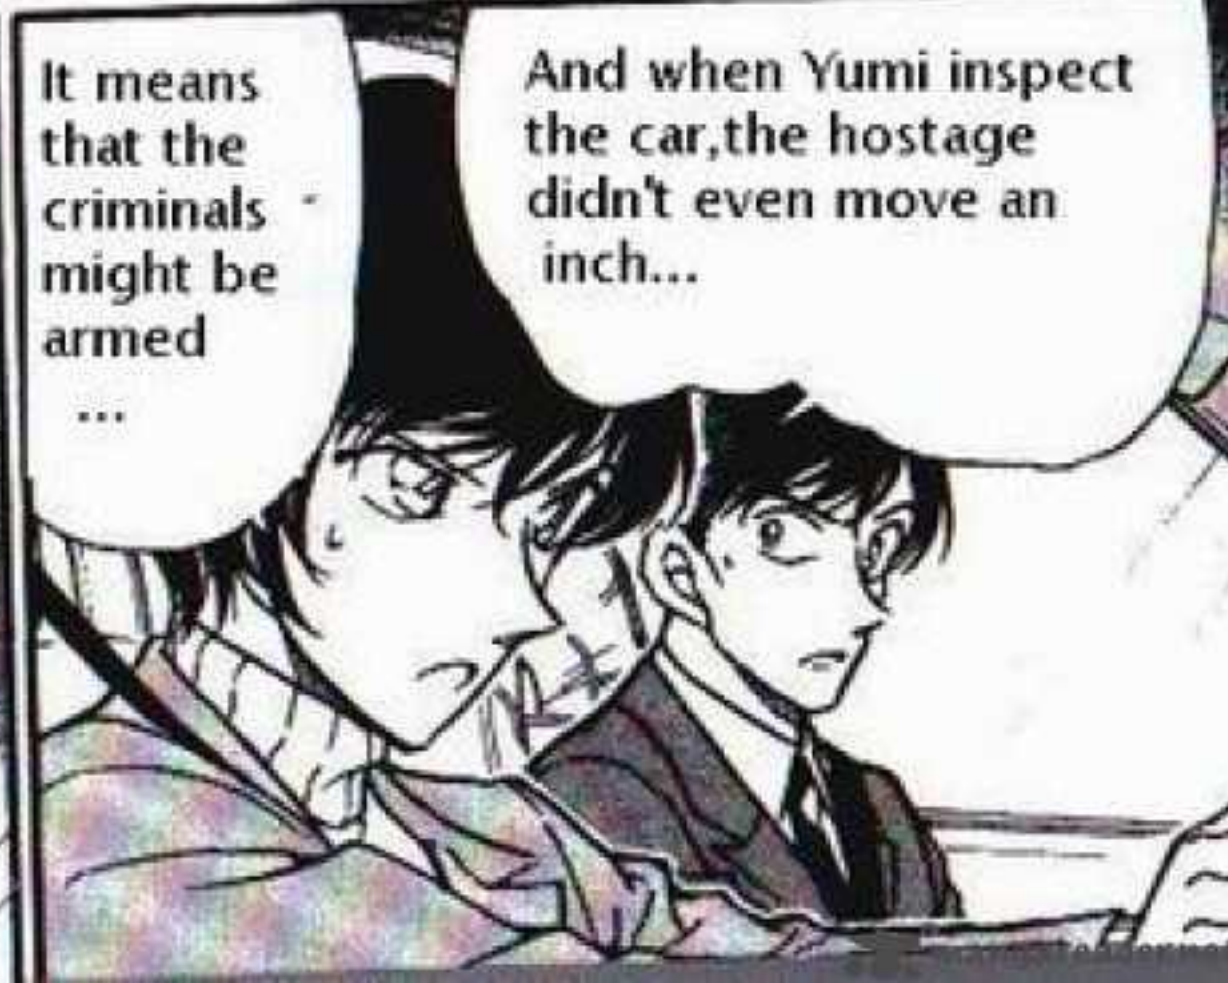

The chance are strong that on the next barrage, they will use the hostage as a shield to past the polices with force.

Yumi already inspect this car...

After passing the barrage with force, they could hide in the city ...

Are you saying that ...

It means that the criminals might be armed ...

And when Yumi inspect the car, the hostage didn't even move an inch...

Doesn't exist ...

But a miracle like this ...

Yes, but before arriving we have to warn the forces to stop them with no doubt...I was thinking a plan the whole way.

It will be a total panic !!!

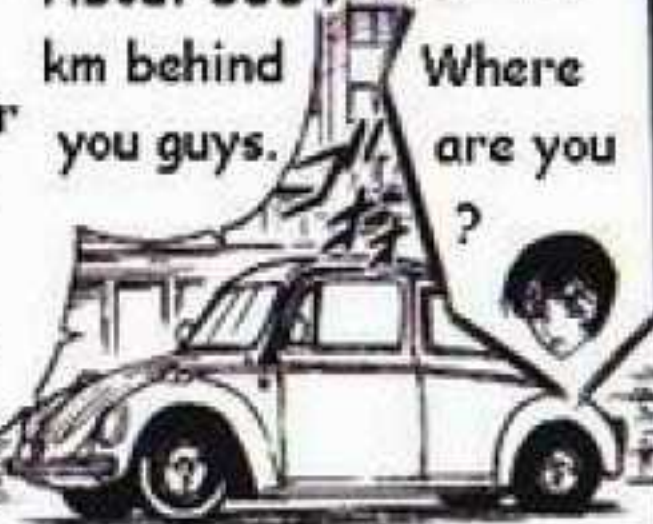

It's more possible than you think ...

I got a solution for this situation, you interest in this?

About 500 km behind you guys.

VRRRR

Where are you ?

Sorry, I secretly put it in your car while ago.

A badge ?!

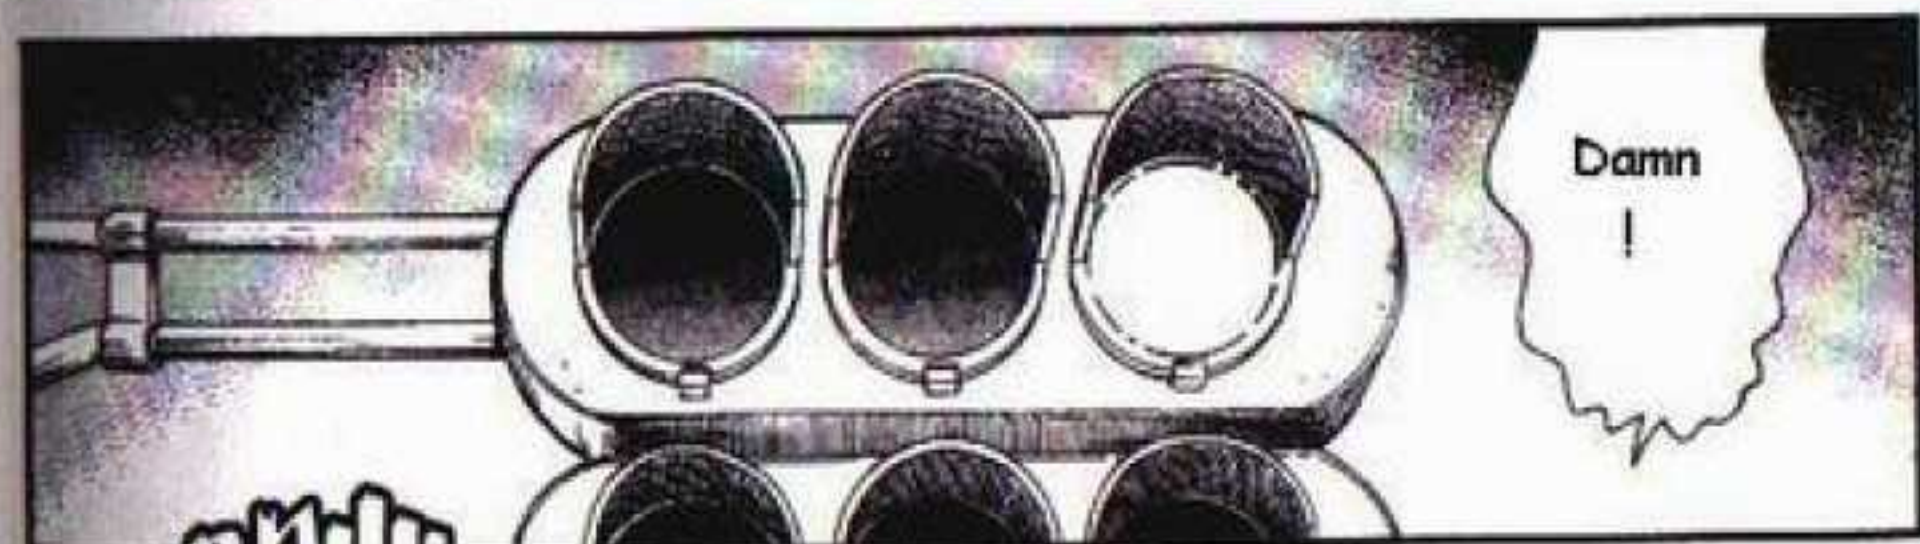

CONAN ?!

This will also include a lot of police officers with us...

Well for a stupid plan like mine works ...

So they caught up with us!

Damn! Cops!

VRRRRR

GLOUP

VRRRRRR

FLAP

FIOUT

Yes ...

We'll use him as a shield to escape !!!

Hurry! Stop !!!

VRRRRRR

Help us
!!!

HEIN ?

FUIT

Excuse
me !!!

What Tha...
?!

EH!!

Help
us
!!!

Help
!!!

I need your
assistance,
it's a case
of kidnap-
ping!!

Inspec-
tor Ta-
kagi !!

VRRRRR

Good it
works !

Got
it...

Pretend to
cooperate, 'till
when you can
escape...

Should we
counter-
attack?

But ...

If you can't go left then try right !!!

Well then?! What are you waiting for?! They will get away with this!!!

VRRRRR

At right there is another one ...

What ?!

There is one on the back...

VRRRRR

IMPOSSIBLE...

You slow down and ...

And behind ?!

SAITAMA PO

What do I do now ???

EH! OH?!

We're surrounded by bunch of cops !!!

PINPON

We're...

PINPON

Or should I say "Holmes" ...

They doing this pretty well these "irregulars"...

Without any doubt ...

We got a hostage !!

We are not giving in ...

Damn!! We are stuck by these cops !!!

CRIII

Everyone
will stop their
car...

When the boss
gives the signal
...

These two will smash
into the bucket seats
because of the sudden
stop...

And these culprits
will also have to
stop theirs...

BOM

BOM

CLAC

By the time these two
pick themselves back
up...

But my body
will be thrown in between
the seats...

And I'll get a
brief release from
them...

BOM

They will be done !!!

COOL GUY...

It was a bit rough
but well done played
...

We got
use to
this
...

Oh, it was
nothing
...

Thanks for
the service
guys !!!

Say
Yumi...

I see
...

MIWA
♡

If Miss
Sato
will
join us
...

And
us ...?

When you got the
handsome guys in
the force!
♡

Say, when
shalle we
go out for
diner?

He disappeared before the questioning ...

You see, he is a weird stranger ...

HEIN?
He was here a minute ago...

Where did the hostage James Black wnet?

Me, it's the name that concern me...
You think?

You think he is hiding something?

I say it's a pretty good name ...

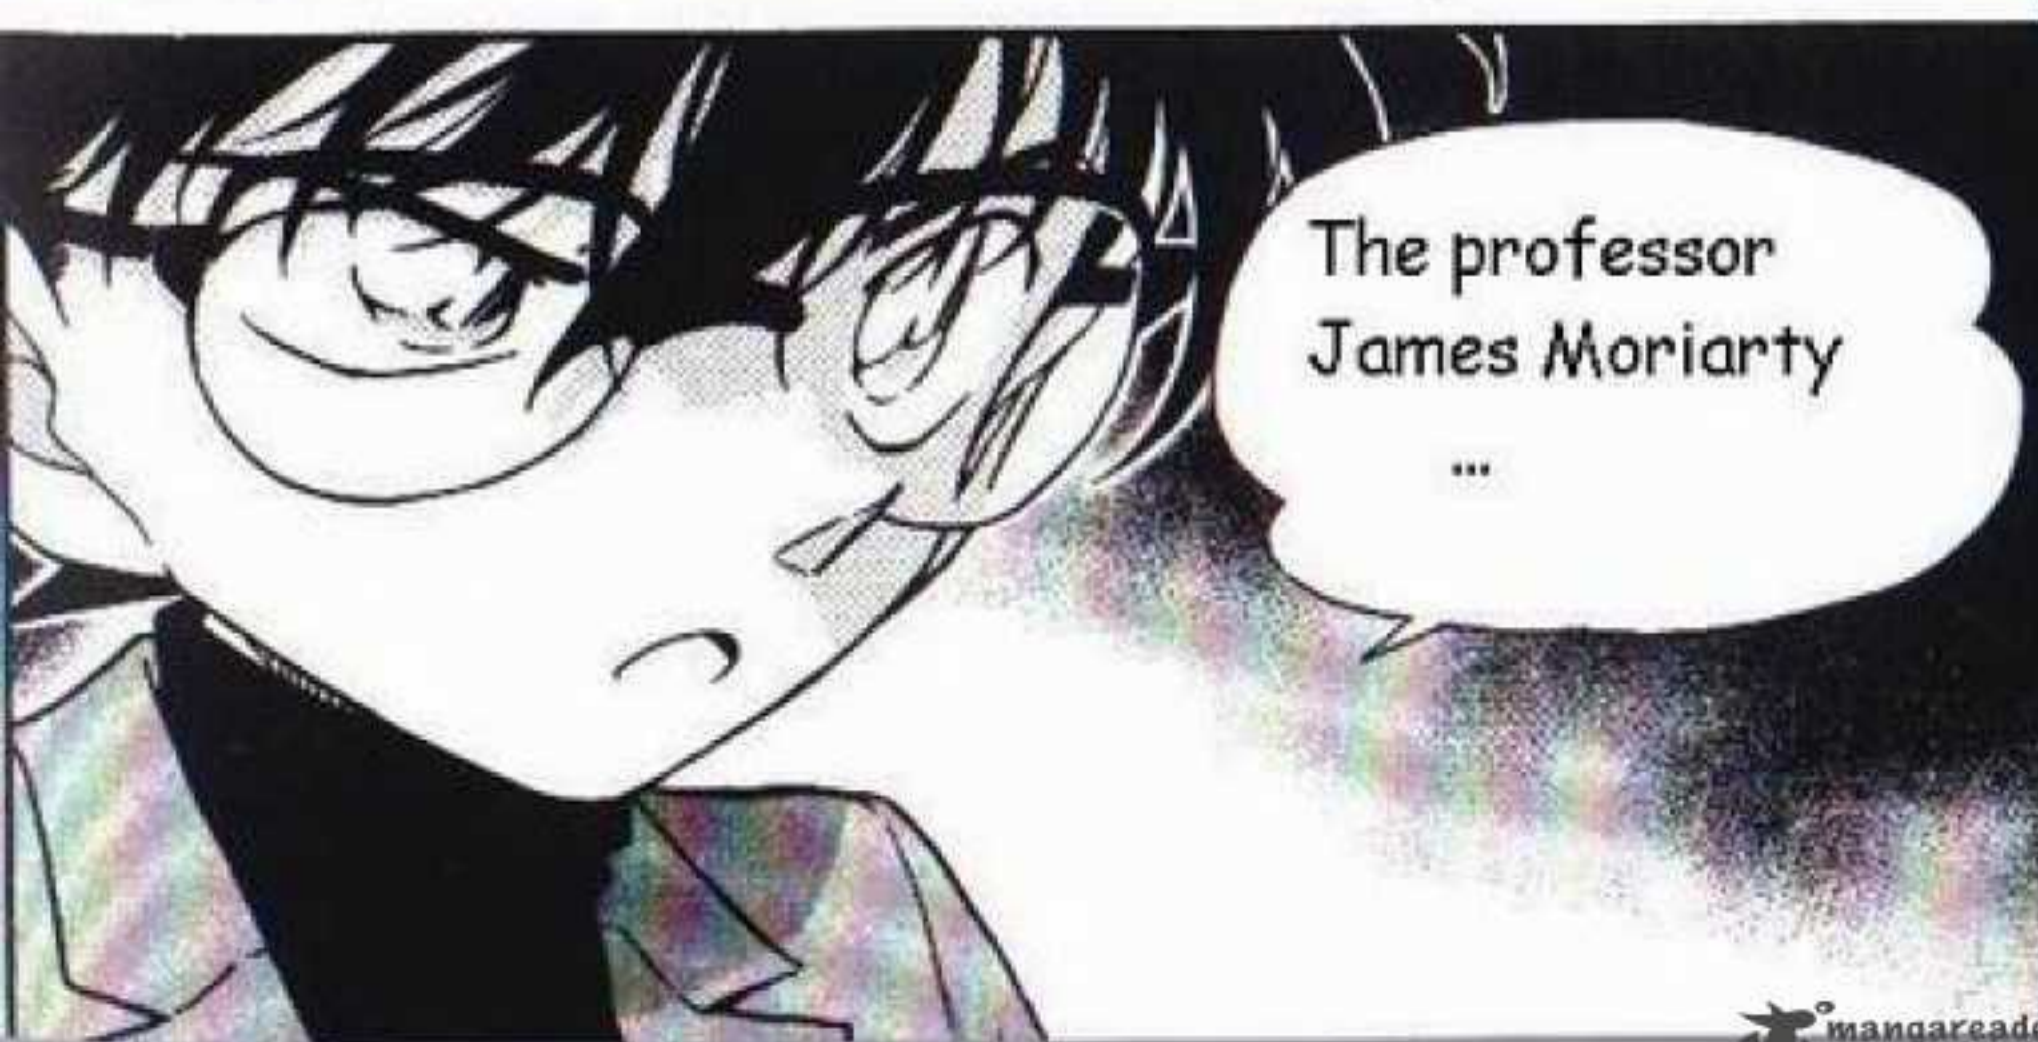

JAMES BOND,
JAMES DEAN...

No the "James" part...

"BLACK"?

Name?

The professor James Moriarty ...

Holmes
enemy,
professor
Moriarty's
first
name...

The
napoleon
crime
...

HEIN?

The guy that
was looking at
us in the car...

But more
than that
...

Well only Sherlock
Holme's fans think
this way... James is
a great name ...

Right
...

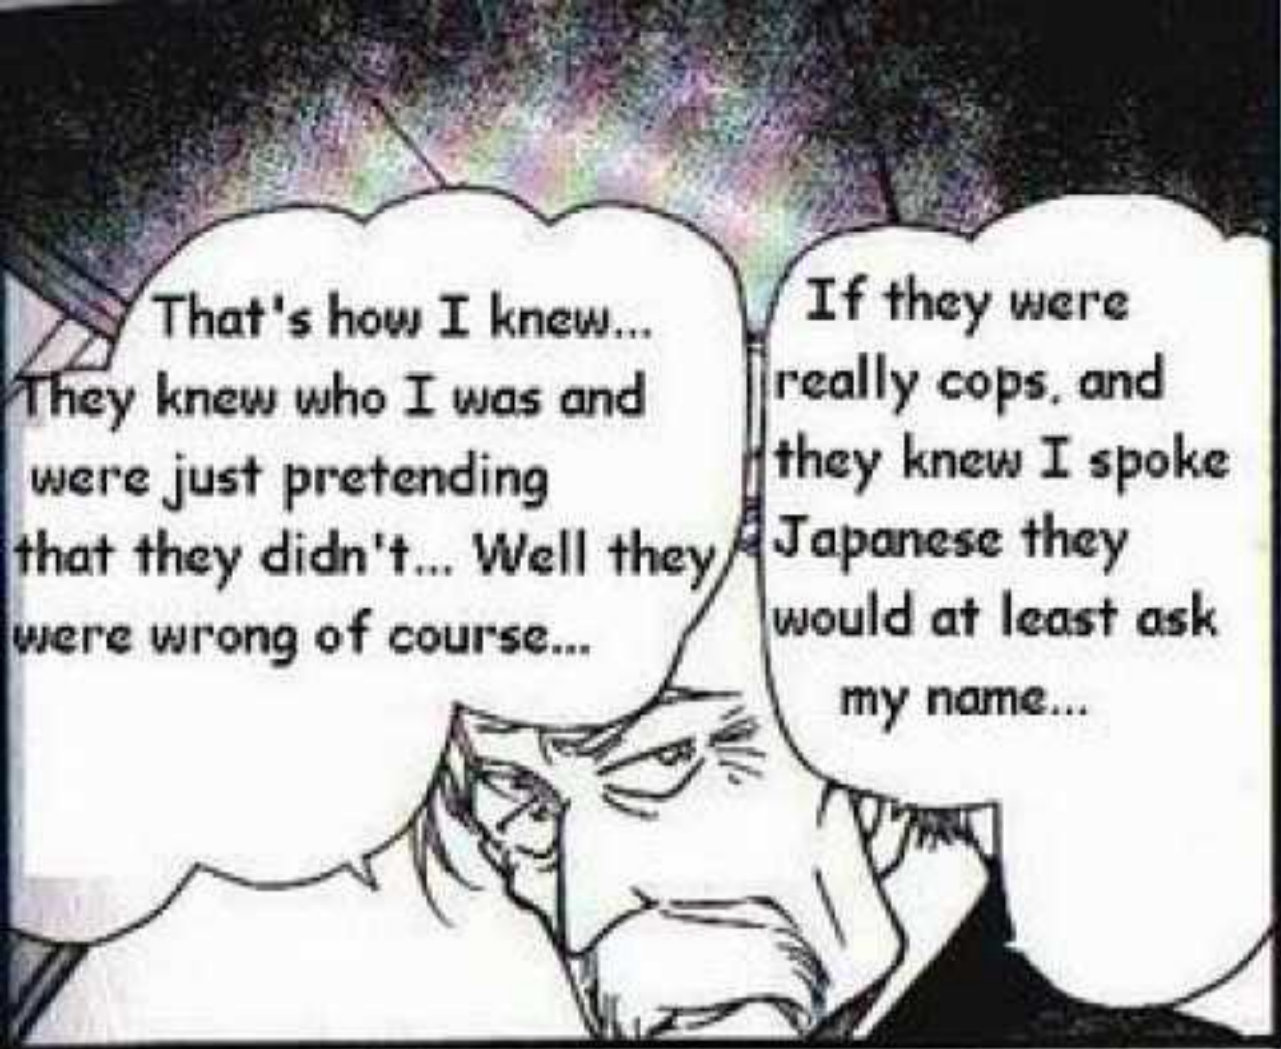

If I remember
well...I think
his name
was Shuichi
Akai...

The one who
was with
us at
the bus
jack...

VRRRRR
For leaving
him a little
message and
code...

I'm not
impressed
by him...

That's how I knew... They knew who I was and were just pretending that they didn't... Well they were wrong of course...

If they were really cops, and they knew I spoke Japanese they would at least ask my name...

When they suddenly started speaking Japanese to me...

When did you notice, that they weren't real cops ?

Since my girlfriend dumped me ...

To freshen up...

That you cut your long hair...

What a surpris ...

So I could make your girlfriend come back to you?

And so, you made me come here ...

With the tears of blood...

If you want but I want her to regret that...
...That she ever left me ...
